CRIME SCENE

2011 Catalog

LYNN PEAVEY COMPANY

Doug Peavey
President and
Chief Executive Officer

Go to LPinsanity.com to see how crazy we can be.

Why this bizarre and to some, disturbing behavior? Because we as an organization are not afraid of failure.

30 years ago, we decided to do something different. Crazy. Innovative. Unique. We decided to start a manufacturing company, free from preconceived ideas or without regard to the tough competition already out there. To be an innovator not a follower. We wanted no part in distributing a product for someone else. God forbid...just making money.

Just talk to our people on the phone or in person at a trade show...more often than not, we are willing to take the risk or the chance on a person, product or technique to improve crime scene investigation. Our marketing has often been called unconventional, unique and even twisted...but generally it has worked.

Did we fail on occasion? Plenty.

But there are tens of thousands of satisfied customers out there who would say that we are succeeding and they appreciate our message. So unlike the people out there that get more conservative in their thinking or products as they get older, we'll still be leading the charge...

In our company, "Being safe all the time will get you killed."

P.S. By watching this short clip, we assert that no animals were injured, and that the first three failed attempts were performed by people who knew up front the risks involved and decided to try it anyway.

Latent Fingerprint Developing

Latent Fingerprint Developing

Our Fingerprint Powders come in a variety of sizes, types and colors allowing you to find the perfect powder for any surface! And our brand new Powder Puff line...powder in aerosol form!

Whether you're looking for basic powder or fluorescent magnetic powder we've got the right powder and applicator to fit all your fingerprinting needs! You won't find better contrast or clearer details...we blend and sift our own powder formulas to exacting recipes.

All Powders subject to GSA Pricing

Call our fingerprint experts at 800-255-6499 if you need more information on what's right for you.

|  | Non-porous surfaces (glass, finished wood, plastic) | Rough, contaminated, and/or multi-colored surfaces | Grained or porous surfaces that might become contaminated with basic powder | Horizontal/non-magnetic surfaces | Best Applicator(s) | The Scoop |
|---|---|--|---|----------------------------------|---|--|
| Basic Powders | X | | | | Fiber Duster | Pick color that is in best contrast to surface. |
| Dual-Use Powder | X | | | | Fiber Duster | Perfect for multitude of surface colors. |
| Fluorescent Powder | | X | | | Feather Duster Jumbo Feather Duster | Alternate light source uses the powder to fullest potential. Blue Light Special or Microblue (pages 58 and 59). Less mess plus enhanced visibility of print. |
| Magnetic Powder | | | X | X | Regular Magnetic Spring-Loaded Magnetic | Less mess and cleaner prints. |
| Fluorescent Magnetic Powder | | X | X | X | Regular Magnetic Spring-Loaded Magnetic | Alternate light source needed for fullest use. Less mess plus enhanced visibility of print. |
| Electric Powder | X | | | | Fiber Duster | Prints appears normal on light surface but light up on a dark surface. |

Latent Fingerprint Developing

Basic Powders

There's nothing standard about our basic powders! These powders are perfect for non-porous surfaces such as glass, finished wood, and plastic.

- ✓ Ideal for non-porous surfaces
- ✓ Use with our Fiber Duster, Feather Duster, Jumbo Feather Duster, All Purpose Brush, Deluxe Brush, or Super Deluxe Brush
- ✓ Variety of colors for contrast to surface

Super Black Powder

Fluorescent Powders

Perfect for dusting latent prints on rough, contaminated, and/or multi-colored surfaces. The ability of the finest particles (4.5 microns to be exact), will allow for brilliant fluorescing. Experience less mess while using less powder. Team these powders up with our portable light sources (MicroBlue™ pg. 59) to fluoresce the print. These powders are to be used with our Feather Duster or Jumbo Feather Duster.

- ✓ Use less
- ✓ Decrease mess
- ✓ Amazing brilliance with ALS

Black Powder Puff

Our regular Black Fingerprint Powder in an easy to use 2oz. aerosol spray. Great especially for areas that you don't want to leave a mess. For best results, form a cone with a sheet of paper to contain the powder. Well over 250 sprays or "puffs" per can. Simply follow with a feather or fiber duster for quick development.

#35495 Black Powder Puff

Latent Fingerprint Developing

Single-Scene™ Powders

Cross-contamination is on everyone's mind. Not now. Individually packaged and hermetically sealed with enough fingerprint powder to handle a single crime scene...then you toss. Especially important with high-profile cases or pesky defense attorneys.

Single Scene Powder
 #30112 Regular SS Black
 #30110 Regular SS Dual-Use
 #30111 Regular SS Red Fluorescent
 #30113 Magnetic SS Black

Magnetic Powders

Magnetic powder is great for rough, grained, or porous surfaces that would otherwise become contaminated with standard powder. Experience less background fill, cleaner prints, and less mess.

- ✓ Less background fill
- ✓ Cost effective
- ✓ Effective on rough, grained, or porous surfaces

Latent Fingerprint Developing

Fluorescent Magnetic Powders

Ideally used on porous, grained, and/or multi-colored horizontal surfaces. You will receive double the advantages by having the two concepts combined. There is less mess, enhanced visibility of latent prints, less background fill, and cleaner prints. Use in tandem with our alternate light sources such as our BattleLite™ for an amazing fluorescence you will just have to see to believe!

Red Fluorescent Magnetic Powder
 #55575 1 oz.
 #55581 16 oz.

 #61021 1 oz.
 #61022 16 oz.
 #30089 128 oz.

Magnetic Applicators

Our one-of-a-kind magnetic applicators are designed for use with our magnetic and fluorescent magnetic powders. Like magic, a cluster is formed at the end of the wand, creating a brush. Our Mega-Mag™ applicator holds 15 times the amount of powder as any other applicator on the market. The brand-new Spring-Loaded Forensic Wand is technologically genius. It won't roll off a table, and the spring-loaded feature enables you to have one-handed application with the flick of the thumb. What's even cooler is that our magnetic applicators help alleviate damaging or scratching the latent print you worked so hard to develop!

(1)

(3)

- ✓ Does not damage or scratch latent prints
- ✓ Less mess
- ✓ Holds more powder

#05551 Regular Magnetic Applicator (1)
 #35555 Spring-Loaded Forensic Wand (2)
 #07555 Mega-Mag Applicator (3)

Latent Fingerprint Developing

TEX Magnetic Applicator

Unbelievably powerful applicator that was designed to prevent contamination from surface to surface. The disposable sleeve allows for easy replacement. Designed for hazardous crime scenes by J.R. Davis, retired from the Houston Police Department. The disposable sleeves protect the wand during use and allow the powder ball to be released when finished. Perfect for hazardous crime scenes.

- ✓ Does not damage or scratch latent prints
- ✓ Less mess
- ✓ Prevents cross-surface contamination

#05947 **TEX Magnetic Applicator**
with two disposable sleeves
#57981 **Disposable replacement sleeves**
10/pack

Fiber Duster

Our Fiber Dusters are hand-made by us using the finest fiberglass filaments. Featuring a polymetric balanced handle these brushes have just the right feel. Perfect for non-abrasive application using any regular powders.

#05539 **Fiber Duster, 7"**
#55539 **Jumbo Fiber Duster**

- ✓ Non-abrasive applications
- ✓ Comfort-feel brush
- ✓ Hand-made by the Lynn Peavey Company

Fiber and Feather Dusters have a sleek new design for better balance.

Feather Duster

The plush feathers in our hand-made Feather Dusters are guaranteed not to damage your prints. Available in two sizes these brushes are great for detailed work on older, dried-out latents.

#07537 **7" White Feather Duster**
#55372 **Jumbo White Feather Duster**
#55360 **7" Black Feather Duster**
#55361 **Jumbo Black Feather Duster**

- ✓ Does not damage or scratch latent prints
- ✓ Ideal for dried-out latents
- ✓ Hand-made by the Lynn Peavey Company

www.lynnpeavey.com

Latent Fingerprint Developing

Single-Scene™ Brushes

Use with our Single-Scene powders. Same as our famous brushes, but a little more frugal. After your done, simply toss. Packaged in sterile, DNA-free tear open pouches.

Single Scene Brushes
#55390 SS Fiber Duster
#55362 SS Feather Duster

Powder Brushes

Our powder brushes feature long, soft, non-abrasive bristles, made from the finest blue squirrel and goat hair.

These brushes are ideal for developing delicate and fragile latent prints with our regular powders.

#05531 Deluxe Brush, 4 1/2" (1)
#05533 Super Deluxe Brush, 6" (2)
#05527 All Purpose Brush, 7" (3)

Whale Mouth Jars

These versatile jars can be used to hold evidence, or with our sifter screen attachment, you'll never contaminate your powder again!

#05003 2 oz. Whale Mouth Jars, 3pk.

DustBustr

Designed for use with a few teaspoons of powder, the DustBustr lid firmly snaps in place and has a hole in the top that perfectly accommodates our Fiber Duster. Simply load your brush, twirl to shake off excess, then pull it from the cup and it's ready to go with the perfect amount of powder. As an added bonus, it has a protective cap that makes it easy for transporting.

#13200 DustBustr w/ lid

Lifting & Printing

Lifting & Printing

Diff-Lift™

We pioneered DIFF-Lift™ because we understand the complexity of lifting latent prints from difficult surfaces. DIFF-Lift is a soft tape-like substance, that fills in the contours of textured surfaces and lifts ALL of the powdered print. Its low surface density actually molds itself to textured surfaces. And to boot, it is nearly 20 times thicker than regular lifting tape! Lift prints off car dashboards, pebble-grained leather, painted cinder blocks, refrigerators, and bank countertops.

#08200 1½" x 60" roll
#08207 2" x 35" roll

Lifting Tape

Our top-selling lifting tape gives you uniform adhesion, proper clarity, and no streaks or bubbles. We also offer frosted tape to reduce photo glare.

Clear Tape

#05563 1½" x 360" roll
#05564 2" x 360" roll
#05567 4" x 360" roll

Frosted Tape

#05565 1½" x 360" roll
#05566 2" x 360" roll
#05568 4" x 360" roll

Polyethylene Tape

The perfect choice for lifting latent prints from curved or irregular surfaces such as door knobs, light bulbs, lamps, and inside bowls. It can stand up to the strongest test with its amazing ability to withstand strain without damaging latent prints.

#05588 1½" x 360" roll
#05589 2" x 360" roll
#05590 4" x 360" roll

Metal Lifting Tape Dispenser

Our Stainless Steel tape dispenser provides a convenient way to avoid getting your own prints on the tape while holding, dispensing, and cutting our variety of lifting tape sizes. The built in sharp serrated cutting blades make a fast, clean cut every time. Available in three sizes to accommodate all of our lifting tapes.

- #95403 Dispenser for 1½" wide tape
- #95394 Dispenser for 2" wide tape
- #95395 Dispenser for 4" wide tape

GSA Pricing

Backing Cards & ScaleLift™ Backing Cards

Identify and preserve your evidence with these extra-heavy stock cards. One side contains diagram sketch areas and the other is a glossy (black or white) side for mounting your lifts. ScaleLift Backing Cards feature a bonus scale printed on the latent print (glossy) side of the card.

White

- #05847 3" x 5", 50 pk
- #05842 4" x 5", 50 pk
- #05581 5 ½" x 8 ½", 100 pk
- #05582 8 ½" x 11", 100 pk
- #05591 ScaleLift, 4" x 5", 100pk

Black

- #05850 3" x 5", 50 pk
- #05844 4" x 5", 50 pk
- #05583 5 ½" x 8 ½", 100 pk
- #06673 7 ½" x 16", 100 pk
- #05592 ScaleLift, 4" x 5", 100 pk

GSA Pricing

PocketPads™

Our PocketPads take lifting tape to the next level. The quality lift you'll experience with each use will produce high-definition latent prints everytime. The clear tape enhances clarity. They come 25 sticky-back sheets to a pad.

- #30034 2" x 6"
- #30036 4" x 6"

Lifting & Printing

← Flap

Flap Lifters

An all-inclusive system that allows you to lift latent prints and have the backing card already there. Peel the protective backing sheet to expose a clear, sticky-back lifting tab. Then place the tab on the powdered print, lift it, and fold down on the pre-attached backing card flap. The backing-card flaps are made from heavy-duty black, white, or clear vinyl and come permanently attached to the flap lifter.

Fingerprint Ink

Quick-drying, black as coal, glides like velvet and provides excellent ridge detail.

Fingerprint Ink
#05570 Tube, 4 oz
#05569 Tube, 2 oz

Ink Slabs

Our slabs are ideal surfaces for rolling out smooth and even coats of ink. They include two holes for mounting to countertops.

#05584 Glass Slab, 5" x 12"
#05585 Steel Slab, 5" x 10"

Ink Rollers

This 4" roller with steel frame and wooden handle rolls even coats of ink with a quick flick of the wrist. The design of the frame prevents the roller from touching the table when not in use.

#05587 Roller, 4"

Pre-Inked Slabs

Our pre-inked slabs have a thin, even coat of fingerprint ink between two pieces of polyester film. Just peel the film surfaces apart and you have two perfectly inked slabs ready for dozens of rolled prints! They're ideal for making elimination prints on-site.

#05540 1" x 5", 100 pk
#05571 3" x 10", 100 pk

Ink Towelettes

Our ink towelettes easily cut through the toughest ink to remove it from hands, pre-inked slabs, etc. Individually sealed in airtight packets and come 100 per pack.

#05580 Ink Towelettes

No International Shipping

Ink Cleaner

An all-natural, waterless hand cleaner that will remove ink from hands, rollers and slabs without rinsing. Simply apply a small amount and wipe off with a paper towel.

#95205 Ink Cleaner

Lifting & Printing

Fingerprint & Palmprint Cards

Brilliant white, 110 lb paper stock ensures clear prints and fast ink absorption. (Call to customize cards for your department in quantities of 5,000 or more.)

- #05994 (A) Personal Record Card, 100 pk
- #05993 (B) Applicant Record Card, 100 pk
- #05995 (C) Palmprint Record Card, 100 pk
- #05996 (D) Criminal Record Card, 100 pk

Fingerprint Cardholder & Goof Tabs™

Built exceptionally strong and rigid, our portable fingerprint cardholder features non-skid rubber feet to prevent smeared prints as the cards are held firmly in place.

Easily cover a mistake with Goof Tabs™. Snow-white absorbent paper provides maximum clarity and fast dry time.

- #05304 Portable Stationery Fingerprint Cardholder
- #05683 Goof Tabs, 200 pk

Retabs Correction Labels

Pressure-sensitive labels used to correct up to two fingerprint errors per ten-print card. Saves both time and money. Retabs work with both ink and inkless systems. Labels come on a roll, which allow you to roll the fingerprint to the label, then remove label and apply a good impression to the card. Retabs are approved by the FBI.

- #09741 Retabs, 500/box

No International Shipping

Pre-Print™

Corrects the skin conditions which cause poor quality fingerprints by eliminating excessive moisture from the fingers, and softens dry, hard, callused fingers. It accentuates the ridgelines for better print reproduction.

- #09742 Pre-Print, 100/box

No International Shipping

Lifting & Printing

BlackMagic™ Ink Pads

Simply touch your fingerprint on the surface of the BlackMagic pad, then roll the print for a jet-black, crisp clear image that instantly dries. Rub your fingers together and the ink wipes off.

You also can roll a full set of prints at a time and even take palm prints with the Jumbo Black Magic.

Lifting & Printing

Post-Mortem Flip Kit™

Our Post-Mortem Flip Kit is known for its ease of use. Using a fiberglass brush, simply apply super-black powder to the hand, then take a lifter and lift the powdered print. No more ink and roller! The "backing card" is similar to a clear, pre-printed fingerprint card. It's clear because all you need to do is "Flip" the card over to view your fingerprints. Developed by an investigator with over 12 years of "hands-on" experience. Enough supplies for 100 individual prints.

- #10062 Post-Mortem Flip Kit
- #60017 Clear Flip Cards, 10 pk.
- #30040 Lifting Tabs, 100 pk.

Post-Mortem Kit

Kit contains everything necessary for fingerprinting the deceased, bed patients or those with crippled hands. Includes a BlackMagic Ink Pad; 50 right-hand card strips; 50 left-hand card strips; 12 ink-cleaner towelettes; and one post-mortem cardstrip holder.

- #45354 Post-Mortem Kit
- #05442 Post-Mortem Spoon Metal
- #05845 100 cards (50 left, 50 right)

Digit 10 Inkless System

The only FBI-accepted inkless system for making 10-print cards, utilizing standard, government-issued fingerprint cards. With the Digit 10, cards can be handled immediately, since the prints are dry instantly. The recessed finger pad and built-in cardholder make a complete portable system. Each kit comes complete with a LE-110 replacement kit of five developer sheets and one inkless pad (3" x 4.5") which will print 500 fingerprint cards.

- #09702 Digit 10 Inkless System
- #09708 Digit 10 Replacement Kit
- #09703 Digit 10 Ink Pad

No International Shipping

Perfect Ink Pads

Will not dry out when left unused. Ink pad features a slight residue left on hands that is easily removed by rubbing them together or wiping with a towel. Hard ceramic inking surface to prevent over-inking fingers.

- #09610 Sm Rectangular Pad 600 Rolled prints
- #09614 Sm Round Pad 1,200 Flat prints
- #09616 Lg Round Pad 4,800 prints
- #09612 Lg Rectangular Pad 16,000 prints

Ground-Domestic Only
No International Shipping

Portable Fingerprinting Stations

These stations consist of an easily replaceable Perfect Ink pad (see item #09612 on page 18) and a cardholder or two, attached to a durable platform. The units produce permanent, black, non-smearing fingerprints on any paper or form. The single cardholder stations are compact, and will fit in any standard-size briefcase. Versions are also available with folding legs that elevate the printing surface off of tabletops to ensure better fingerprint quality.

- #09744 Portable Fingerprinting Station (1), 16 3/4" x 6" x 2"
- #09745 Portable Station, Folding Legs (2)
- #09746 Station, Two Card Holders (3)
- #09747 Station, Two Card Holders and Folding Legs (4), 27" x 6" x 2"

No International Shipping

Portable Fingerprinting Kits

We've packaged everything you need in an Indenticator Fingerprint Kit. The kit comes complete with a portable fingerprinting station, a box of Retabs and 50 individual Pre-Print wipes packaged in a foam-lined, durable black plastic case.

- #07944 Portable Fingerprinting Kit, includes #09744 (1)
- #07945 Portable Fingerprinting Kit, includes #09745 (2)

No International Shipping

Fingerprint (Porelon) Pad

For use in the field or office. Simply place fingertips on the pre-inked touch pad, then print. Special permanent ink is non-fading and quick drying.

- #05572 Round Pad, 2" 5,000 prints
- #05575 Pad Refill 15,000 prints
- #05576 Combo Pocket/Desk Pad 15,000 prints

Lifting & Printing

The Inkless Porta-Palm Printer

A 5" x 5" label designed for obtaining elimination palm prints at the crime scene. Prints are obtained utilizing an inkless coating pad with special pressure-sensitive treated labels. No development is necessary. This product is portable, easy to use, and produces clear images.

#09805 Inkless Port-Palm Printer, 400 labels

Also available with the Perfect Ink solution. Good for printing on any paper form. No labels included.

#09440 Perfect Ink Porta-Palm Printer

No International Shipping

Inkless Roller Palm Printer

Easy to use and mess free. The special red coating formula produces dark, red prints that do not smear. This unit is made up of a coating roller and an impression roller. Simply roll the palms on the red coating roller. Place a palm print card on the impression roller, proceeding to roll the palm across it. Upon completion, process the card in a Digit 10™ or IndentaPrint™ unit for converting the red prints to rich black, non-fade prints. You now have prints suitable for scanning in an AFIS system, and also acceptable for submission to the FBI. This steel unit is countertop mountable with a locking mechanism to secure the rollers. Each roller can produce up to 1000 impressions.

#09800 Roller Palm Printer, metal

No International Shipping

Inkless Elimination Print Kit

Pocket Print is the easiest, cleanest and quickest way to obtain elimination fingerprints in the field. Fits in your shirt pocket. Makes the old-fashioned messy ink method of taking prints obsolete.

Coating pad contains sufficient material to develop 10 rolled prints on each of the 50 case sheets. On the reverse side of each sheet is a place for a case number and demographics information.

#09953 Pocket Print Elimination Kit

No International Shipping

Roller Palm Printer

Roll perfect palm prints everytime. The unit consists of a roller pad filled with Perfect Ink™ (that means smear-free prints!) and a cardholder with a card-lock groove. Easy clean up with a wet paper towel. Steel unit is countertop mountable.

#98002 Roller Palm Printer, metal

#09802 Replacement Roller, metal

Identa-Print Inkless System

Utilizing the same inkless formula and process as the Digit 10, this Identa-Print system is designed for high volume printing. This rugged metal unit can be mounted on a counter top and is built to withstand the hostile booking room environment. Comes complete with pad (3" x 5") and 10 developer sheets and enough inkless solution to print 1,000 complete 10-print cards.

#09705 Identa-Print Inkless System
#09709 Identa-Print Replacement Kit

5-Drawer Fingerprint Card Storage

How long is a row of 20,000 fingerprint cards laid side by side? We don't know because ours are neatly stored in this 5-drawer storage. Available in nine colors.

#51151 21 1/2" x 28 5/8" x 5 1/8" Call for pricing

CSIpix Comparator

Comparison software that will enable you to compare prints like the big boys do!

Completely PC driven. No need for additional hardware. Intuitive enough to call this "simple to figure out." Affordable for anyone to justify.

Scan 10-print images. Scan latent images. On screen, open the images for comparison and see them side by side in the same magnification. One-click functions like auto scaling, auto contrast, and gray-scale optimization help speed the comparison.

A full complement of annotation features lets you put in circles, dots, arrows, minutia symbols, labels and more. (Makes for a professional courtroom exhibit presentation either in print or a slideshow.)

And here's the best part...go to www.lynnpeavey.com to download your free 30-day trial! After that, it's just \$299 if you want to continue. What have you got to lose?

#20132 CSIPix Software

Latent Fingerprint Kits

Latent Fingerprint Kits

New & Improved

Ultimate CSI™ Kit

Everything an investigator's team needs to locate, collect, process and package evidence at the scene. We like to consider it a culmination of our finest products. Originally developed for the US Government overseas to support missions of our soldiers, this kit gives you the tools to "attack" any crime scene you may encounter. Now with new "rolling" cases that are easily transportable.

Latent Fingerprint Kits

MicroBlue™ Kit-in-a-Can

You can never have too much innovation in a kit, so we combined the MicroBlue™ with the PowderJet™ fluorescent powders and coined this our very own Kit-in-a-Can! Ideal for viewing fluorescent latent prints and body fluids.

Contents of kit

- 1–MicroBlue™ with amber shield
- 2–Feather Dusters
- 2–PowderJets™ (red and orange fluorescent)
- 36–Flap lifters (24–2x2 clear, 12–2x4 clear)

#20000 MicroBlue™ Kit-in-a-Can

Basic MicroBlue Kit™

If you love our MicroBlues (we surveyed 10 CSI's and all 10 agreed) and are looking for a basic kit that will "get the job done", then this is your kit!

Contents of kit

- 1–2 oz. jar of fluorescent powder (red)
- 1–Feather Duster
- 1–1½" Roll of lifting tape
- 50–Black backing cards
- 1–MicroBlue™
- 1–Carrying case with custom foam insert

#40001 MicroBlue™, Clear Tape (black case)

#40032 MicroBlue™, Clear Tape (orange case)

Deluxe MicroBlue™

A step up from our Basic MicroBlue™ Kit that will help you delve into the crime scene a little deeper. Again, if you don't already have a portable light source and prefer on, this kit comes equipped with one. Works great for use in sexual assault cases.

Save \$70 over purchasing separately!

Contents of kit:

- 3–2 oz. jars fluorescent regular (red, orange and yellow)
- 2–1 oz. jars fluorescent magnetic powders (red and yellow)
- 3–Feather Dusters
- 1–Spring Loaded Magnetic Applicator
- 1 ea.–Frosted and clear lifting tape
- 50–Black backing cards
- 1–MicroBlue™
- 1–Carrying case with custom foam insert

#40003 Deluxe MicroBlue™ (black case)

#40033 Deluxe MicroBlue™ (orange case)

Latent Fingerprint Kits

Basic Black Light Kit

Basic Black-Light Latent Fingerprint Kit, a great starter kit with all the right stuff.

Contents of kit:

- 1-2 oz. jar fluorescent powder (red)
- 1-Feather Duster
- 1-1½" Roll of lifting tape
- 50-Black backing cards
- 1-Black-light source
- 1-Carrying case with custom foam insert

#05637 Black Light, Clear Tape (black case)

#40012 Black Light, Clear Tape (orange case)

Deluxe Black-Light Kit

You can never have too much of a good thing, right? So, we took the Basic Black-Light Kit and made it even bigger by offering more varieties of powder and applicators! Get ready to be "wowed" with the cornucopia of colorful products.

Contents of kit:

- 3-2 oz. jars fluorescent regular (red, orange, and yellow)
- 2-1 oz. jars fluorescent magnetic powders (red and yellow)
- 3-Feather Dusters
- 1-Spring Loaded magnetic applicator
- 1 ea. -Frosted and clear lifting tape
- 50-Black backing cards
- 1-Black-light source
- 1-Carrying case with custom foam insert

#05647 Deluxe Black-Light Kit

Latent Fingerprint Kits

Standard Peavey Powder Kit

Start collecting fingerprints today with our top quality products. Can be used as a basic starter kit for evidence techs, CSI's and officers who prefer our fiber dusters.

Contents of Kit:

- 1 - 2 oz. jar of powder
- 1 - Fiber Duster
- 1 - 1 1/2" Roll of lifting tape
- 50 - White backing cards
- 1 - Carrying case with custom foam insert

- #05600 Black Powder, Clear Tape (black case)
- #40023 Black Powder, Clear Tape (orange case)
- #05601 Dual-Use Powder, Clear Tape (black case)
- #40030 Dual-Use Powder, Clear Tape (orange case)
- #05602 Black Powder, Frosted Tape (black case)
- #40019 Black Powder, Frosted Tape (orange case)

Deluxe Peavey Powder Kit

We stepped it up from our Standard Peavey Powder Kit by giving you more versatility with background options.

Contents of kit:

- 3-2-oz. jars of powder (black, gray, and dual-use)
- 3-Fiber Dusters
- 1-1 1/2" Roll of lifting tape
- 50-White backing cards
- 50-Black backing cards
- 1 pr.-Cotton Gloves
- 1-Adhesive Ruler 2 cm (150/roll)
- 1-5" Scissors
- 1-3x Folding Magnifier
- 1-Carrying case with custom foam insert

- #05610 Clear Tape, (black case)
- #40020 Clear Tape (orange case)

White/Black Combination Kit

When you're looking for a more economical choice, but still need the flexibility of processing prints on various backgrounds, our white/black combo kit is just the answer.

Contents of Kit:

- 1 - 2 oz. jar of black powder
- 1 - 2 oz. jar of white powder
- 2 - Fiber Dusters
- 1 - 1 1/2" Roll of lifting tape
- 50 ea - Black & white backing cards
- 1 - Carrying case with custom foam insert

- #05606 Clear Tape, Black Case
- #40008 Clear Tape, Orange Case

Latent Fingerprint Kits

Disposable Print Kit

Basic kit for processing minor crime scenes. Contains the same features as our Standard Peavey Powder Kit, but at a fraction of the cost, all in an easy-to-store disposable box with foam insert. Also a great learning kit for students interested in the crime scene field.

Contents of Kit:

- 1 - 1 oz. jar of dual-use powder (Regular, Combo or Magnetic)
- 1 - Fiber Duster or Tex Mag
- 1 - 1 1/2" Roll of frosted lifting tape
- 50 - White backing cards
- 1 - Disposable box with foam insert

- #09505 Dual-Use/Fiber Duster
- #09517 Dual-Use/Tex Mag
- #09541 Combo Kit

Standard Feather Duster Kit

When you want less mess and abrasiveness when processing prints. Our feather dusters pick up smaller particles of powder, which means less powder on your print.

Contents of kit:

- 1-2-oz. jar of powder
- 1-Feather Duster
- 1-1 1/2" Roll of lifting tape
- 50-White backing cards
- 1-Carrying case with custom foam insert

- #05644 Black Powder, Clear Tape (black case)
- #40026 Black Powder, Clear Tape (orange case)

Standard Magnetic Kit

A basic magnetic kit gives you the option to use our new Spring Loaded Applicator so you can process larger areas. There is nothing standard about our quality (high quality is our standard).

Contents of kit:

- 1-1-oz. jar of black magnetic powder
- 1-Spring Loaded magnetic applicator
- 1-1 1/2" Roll of lifting tape
- 50-White backing cards
- 1-Carrying case with custom foam insert

- #05620 Clear Tape (black case)
- #40015 Clear Tape (orange case)

Latent Fingerprint Kits

Deluxe Magnetic Kit

We've created a comprehensive magnetic kit for those of you who like working with our magnetic powders and applicators. Less background fill, easy clean-up... what more could you possibly want?

Deluxe Combination Kit

A step up from our standard kits, the Deluxe Combination Kit allows for more flexibility when processing various types and colors of surfaces by including standard and magnetic powders.

Compact Combination Kit

For the budget-conscious tech, we designed this kit with the same attention to detail as the Deluxe Combination kit, only we downsized a bit. Features our orange carrying case that allows you to add your own supplies!

Contents of kit:

- 2-1-oz. jars of magnetic powder
- 1-Spring Loaded magnetic applicator
- 1-1½" Roll of lifting tape
- 50-White backing cards
- 1-Carrying case with custom foam insert

- #05630 Black Powder, Clear Tape (black case)
- #40016 Black Powder, Clear Tape (orange case)

Contents of kit:

- 3-2-oz. jars of powder (black, gray, dual-use)
- 3-Fiber Dusters
- 2-1-oz. jars of magnetic powder (black, gray)
- 1-Spring Loaded magnetic applicator
- 2-1½" Rolls of lifting tape
- 50-White backing cards
- 50-Black backing cards
- 1-Carrying case with custom foam insert

- #05640 Clear Tape, Black Case
- #40028 Clear Tape, Orange Case
- #05641 Frosted Tape, Black Case

Contents of kit:

- 1-2-oz. jar conventional powder
- 1-1-oz. jar of magnetic powder
- 1-Fiber Duster
- 1-Spring Loaded magnetic applicator
- 1-1½" Roll of lifting tape
- 50-White backing cards
- 1-Carrying case with custom insert
- 1-Pair of cotton gloves
- 1-Adhesive Rulers 2 cm 150/roll
- 1-5" Scissors
- 1-3x Folding Magnifier

- #05628 Dual-Use, Clear Tape (black case)
- #40006 Dual-Use, Clear Tape (orange case)
- #05634 Black Powder, Clear Tape (black case)
- #40005 Black Powder, Clear Tape (orange case)

Latent Fingerprint Kits

Do-It-Yourself Powder Kit

For those of you who aren't satisfied until you "have it all." The Do-It-Yourself Powder Kit allows you to process any type of surface or background you may encounter on a crime scene...and at a very affordable price. Count 'em up: that's 14 different powders in one very special kit!

GSA Pricing

Contents of kit:

- 4-2-oz. jars print powders (black, gray, white, and red)
- 1-2-oz jar dual-use powder
- 4-2-oz. jars fluorescent powders (red, orange, green, and yellow)

Latent Fingerprint Kits

Peavey Tracker Processing Kit

Perfect kit for the experienced CSI or CSI Unit. Process latents on textured, multi-contoured surfaces; cast tool marks; develop prints on wet surfaces with Wet Print™, and on paper with Ninhydrin. Detect semen, saliva and urine with the MicroBlue™ light source, (yes, that's in here, too!). This kit even features our beloved Pop-N-Fume™, which will allow you to process your evidence right there on the spot. All this and more in a double-buckled closure case with a carrying handle on top.

Contents of Kit:

Regular Powders

- 1–2 oz. Black Powder
- 1–2 oz. White Powder
- 1–2 oz. Dual-Use Powder
- 1–2 oz. Gray Powder

Fluorescent Powders

- 1–2 oz. Fluorescent Red Powder
- 1–2 oz. Fluorescent Green Powder
- 1–2 oz. Fluorescent Orange Powder
- 1–2 oz. Fluorescent Yellow Powder

Magnetic Powders

- 1–1 oz. Black Magnetic Powder
- 1–1 oz. White Magnetic Powder
- 1–1 oz. Dual-Use Magnetic Powder
- 1–1 oz. Red Magnetic Powder
- 1–1 oz. Yellow Magnetic Powder

Brushes

- 1–7" Goat hair
- 4–7" White Feather Dusters
- 4–Fiber Dusters
- 1–Spring Loaded Magnetic Applicator

Fingerprint-Lifting Materials

- 1–Clear 2" Lifting Tape
- 1–Frosted 2" Lifting Tape
- 1–Polyethylene 2" Lifting Tape
- 24–2" x 2" White Flap Lifters
- 24–2" x 2" Black Flap Lifters
- 24–2" x 2" Clear Flap Lifters
- 12–4" x 4" White Flap Lifters
- 12–4" x 4" Clear Flap Lifters
- 12–4" x 4" Black Flap-Lifters
- 1–DIFF-Lift, 1½" x 60"
- 1–Mikrosil Toolmark Putty Kit
- 50–4" x 5" White Backing Cards
- 50–4" x 5" Black Backing Cards

Fuming/Chemical Process

- 1–8 oz. Wet Print
- 3–HotShot Fingerprint Developers
- 1–Pop-N-Fume Fuming Chamber

Rulers

- 1–Reversible "L" Scale
- 1–30 ft. Roll of 1" Ruler Tape
- 1–2 cm White Adhesive 150/roll
- 1–2" White Adhesive 150/roll
- 1–6" White Adhesive 150/roll

Support Materials

- 1–MicroBlue™
- 1–Evidence Processing Manual
- 2–4X Magnifier
- 6–Blood-Stain Templates
- 6–Evidence Templates
- 24–Disposable Towlettes
- 24–Latex Gloves
- 1–Scissors
- 1–Evidence Marker
- 4–Disposable Tweezers
- 1–Xpand-it

#09642 Peavey Tracker Processing Kit

Latent Fingerprint Kits

Multi-Purpose Field Kit

The name of this kit clearly speaks for itself. Develop, lift, i.d., view, record, and much more, with this multi-purpose kit.

Contents of kit:

- 3-2-oz. jars of powder (super black, white, and red)
- 2-2-oz. jars fluorescent powder (red and orange)
- 3-1-oz. jars fluorescent magnetic (black, red and white)
- 1-1-oz. jar of white magnetic powder
- 2-Feather Dusters
- 3-Fiber Dusters
- 1-TEX™ magnetic applicator w/2 disposable sleeves
- 1ea.- 1½" rolls of lifting tape (clear, polyethylene, and DIFF-Lift™)
- 3-White vinyl 6" rulers
- 2-2 cm. Mini-Rulers (black and white)
- 3-12 count 2" x 4" flap-lifters (black, white, and clear)
- 5-Pair latex gloves
- 10-Ink Remover Towelettes
- 100-ScaleLift backing cards (50 black and 50 white)
- 3-HotShots™ with 13" x 18" baggies to fume in
- 1-3X dome magnifier
- 1-2" BlackMagic ink pad
- 1-MicroBlue™
- 1-Scissors
- 1-Disposable fuming bag chamber
- 50-Fingerprint elimination cards
- 1-Carrying case with custom foam insert

#09603 Multi-Purpose Field Kit

DIFF-Lift™ Kit

This is a truly unique kit because it features our extremely popular and innovative DIFF-Lift™ lifting tape. Ideal kit when you need to lift prints from highly textured surfaces such as car dashboards, refrigerators, painted cinder blocks, etc. Also includes HotShots™ so that you can develop the latent print right at the scene.

Contents of kit:

- 1-2-oz. jar dual-use powder
- 1-1-oz. jar dual-use magnetic powder
- 1-Feather Duster
- 1-Spring Loaded magnetic applicator
- 50 ea.-White and black 4" x 5" backing cards
- 1-Roll 2" clear tape
- 4-Pairs latex gloves
- 1-Scissors
- 1-Ink Roller
- 1-Roll DIFF-Lift™
- 2-HotShots™
- 1-Carrying case with custom foam insert
- 1-2 cm Scales, 150/Roll
- 1-3x Folding Magnifier

#08205 DIFF-Lift Kit

Latent Fingerprint Kits

GooPrint Kit

The ideal kit for kidnappings involving suspects leaving their fingerprints behind on various types of tape. GooPrint mixes to form a paste that you "paint" on the adhesive side of tape. Rinse it off and you have just ID'd your suspect!

Contents of kit:

- 1-50 gm. jar GooPrint Black Powder
- 1-48 gm. jar GooPrint White Powder
- 1- 4 oz. container dispersion solution
- 1- 7" goat-hair brush
- 2- Empty jars with lids
- 1- Empty plastic bottle for mixing
- 2- Pipettes for measuring
- 3- Measuring spoons
- 1- Carrying case with custom foam insert

- #40043 GooPrint Combo Kit (white and black powder, not shown)
- #30033 GooPrint Powder, 48 gm.
- #30057 GooPrint White Powder, 50 gm.

Original Crime Scene Gear Kit

Best all-around fingerprint processing kit. This kit was created with over 25 years of law enforcement and crime scene investigation experience behind its design. You can collect prints from light, dark, textured, multi-contoured, smooth non-porous surfaces, and more. With the amazing fluorescent black powder you can develop latents with the MicroBlue portable ALS (included of course) and place the print on a white backing card (which latent examiners love). That's a lot of crime fighting tools.

Contents of kit:

- 2-Fiber Dusters
- 1-Feather Duster
- 1-Spring Loaded magnetic applicator
- 1 ea.-2-oz. powders (gray, super black, fluorescent orange, fluorescent magnetic black)
- 1-Roll 2" clear lifting tape
- 1-Roll 2" polyethylene tape
- 1-Roll Diff-Lift 1½" tape
- 1-MicroBlue Light
- 1 ea.-6" black and white ruler
- 1-Scissors
- 50-Black backing cards
- 50-White backing cards
- 12-Towelettes
- 6-Pair of latex gloves
- 2-Respirator cone masks
- 1-Orange case with custom foam insert
- 1-2 cm Scales 150/roll
- 1-Folding 3x Magnifier

#40031 Original Crime Scene Gear Kit

Latent Fingerprint Kits

Super Deluxe Case for "Tracker" Kit

Designed to hold everything you see listed on page 34 and the kitchen sink. This case will keep even the best equipped kit looking neat and orderly.

#06025 23" x 10 1/2" x 11 3/8"

Orange Case

Measures 13" x 6 3/4" x 10" and includes custom foam insert. Easily expands to accommodate your own extra supplies.

#01367 Orange Case

Combo Small Case for Regular and Magnetic Powder Kit

Designed to hold one container of regular or magnetic powder, one powder brush/magnetic applicator, one roll of lifting tape, and backing cards.

#06021 10" x 8 5/8" x 3 1/8"

Combo Large Case for Regular and Magnetic Powder Kit

Designed to hold two containers of regular or magnetic powder, three powder brushes or one magnetic applicator, two rolls of lifting tape, and backing cards.

#06024 13 1/2" x 10" x 5 1/8"

Latent Fingerprint Kits

We put together kits based on what you tell us; not what we think you want. Our kit 'flavors' provide whatever you need for whatever the scene. Mix and match or create your own...we've got you covered.

Chemical Enhancement & Development

UNTREATED METAL
i.e. iron and stainless steel

PLASTIC PACKAGING MATERIAL
i.e. plastic grocery bags, cling-wrap, zip-lock bags, sandwich bags

ADHESIVE SURFACES
i.e. adhesive tape, bumper stickers, etc.

WAX/WAXED SURFACES
i.e. waxed paper, candles, waxes, food containers

RAW WOOD (Untreated)
i.e. for most wood except for painted or varnished

= Hazardous Goods

This symbol indicates that the product is a hazardous good. Special packaging and handling requirements are applicable.

SMOOTH, NON-POROUS, NON-FERROUS SURFACES
 i.e. paint, plastic, glass, varnish

TEXTURED, NON-POROUS SURFACES
 i.e. textured plastic moldings, brushed metal, painted rough wood

PAPER AND CARDBOARD
 i.e. unvarnished, unwaxed, raw

FINGERPRINTS IN BLOOD
 (porous surfaces)

SOFT VINYL (PVC), RUBBER AND LEATHER
 i.e. some cling film and simulated leather upholstery

Chemical Enhancement & Development

Peavey-Print: Super Glue™

Fuming with our Peavey-Print™ Super Glue is an excellent method for finding latent prints on difficult surfaces such as wood, guns, plastic products, etc. Heat and humidity will accelerate this fuming process. We highly recommend using an enclosed chamber while fuming so the evidence can be fully exposed to vapors.

#05441 Bottle, 1 oz.

#05439 Bottle, 1 lb.*

*1 lb. bottle kit includes 5, 1 oz. empty bottles for dispensing.

Hot Shot™

With our tried and true HotShots, you won't have to worry about poorly developed, transient and faint latent prints, wasted chemicals, mess, or guesswork. This self-contained and disposable product can finally put your mind at ease.

Within a few seconds, the activator solution is absorbed, and a chemical reaction takes place, generating heat and a controlled amount of steam for needed humidity. As the canister heats, the HotShot fingerprint developer begins to vaporize and fills the fuming chamber with extremely sensitive, active print-developing fumes.

HotShot is all inclusive to fume several items in a contained chamber. After use, simply screw the lid back on the protective container, and throw the unit away.

Chemical Enhancement & Development

Print Pouch

The Print Pouch is a one-part fingerprint developer that consists of a peel-open 4" x 7" envelope filled with super-glue gel that won't spill, leak, or flow. Once you open the pouch, concentrated invisible fumes rise from the treated pouch interior. These strong-smelling vapors react with latent residues, leaving you with white durable prints. All you need is the pouch, evidence, and a fuming chamber.

Our pouches are portable and offer up to 12 hours of in-use fume generation. Ideal for fuming the interiors of vehicles or rooms. Just make sure you allow sufficient time for print development and for adequate ventilation (i.e. 2-4 hours) before entering. Instructions are included.

- #05479 Starter Kit, 5 pk.
- #05479 Kit, 20 pk.
- #05479 1 Case, 100 pk.

FrostFree™

There's no point in having a great fuming chamber if the super-glued walls block your view of the evidence. Clean fuming tanks make for better fuming. FrostFree blankets the sides with an invisible film to give you an eagle-eye view of the evidence inside. One application will treat up to 25 sq. ft of glass or plastic and works for up to 30 days.

- #06126 FrostFree

Fuming Hot Box

Our Fuming Hot Box is set at just the right temperature to make sure you get your prints without damaging evidence or giving off toxic fumes. 10 disposable aluminum reservoirs are included.

- #05595 Fuming Hot Box
- #02543 Aluminum Reservoirs

Chemical Enhancement & Development

Fuminator Wand

With a few waves of this wand, developing prints has never been easier. Simply attach the fuminator cartridge to the tip of the butane-powered fuming wand (butane not included) and ignite. Within minutes, fumes will begin to pour from the open end of the cartridge. Once latent prints become visible, you can photograph and process with Peavey powder or chemical dyes. You won't have to be concerned with smearing or smudging because the latent prints are durable and permanent... (which comes in handy in courtroom presentations.)

With up to 25 minutes of continuous fuming per cartridge, you can process multiple items at once. For you seasoned pros who don't need as much time, the mini-fuminators give you 2-½ minutes!

Contents of kit:

- 1–Wand
- 3– Fuminator cartridges
- 1– Carrying case

- #06400 Fume Wand Kit with mini
- #06403 Fuming Wand Kit
- #06503 Fuminator 4 pk.
- #06501 Mini-Fuminator 10 pk.

Pop-N-Fume™

We made Pop-N-Fume a companion for our HotShots™, but it is versatile enough to work with all field or laboratory procedures for fuming latent prints.

No misplacing of parts (it's shock-corded) – no heavy fuming tanks – and no more cleaning! With the collapsible fuming bag design, the crystal-clear bags are pre-printed with a test print area so you can constantly monitor the fuming process. When prints are developed on the test print area, you are finished!

The Pop-N-Fume kit comes with the framework, base, evidence clips, carrying pouch, and 15 disposable pre-printed fuming bags. Size is 11" x 11" x 28". Its solid steel construction with extra heavy-duty shock cord will provide you with years of use.

- #05475 Pop-N-Fume Kit
- #05039 Fuming Bags, 25 pk.

Fuming Tent Kit

Great choice for fuming any oblong object such as doors, shotguns, ladders, or even a body. This tent forms a chamber around the object so precious evidence does not get contaminated before you fume. It can also be used as a privacy screen. Fitting up to 8' x 3' x 4', this kit includes a reusable heavy duty nylon sewn tent complete with a zippered observation window, a monitoring test-print window, and a flapped hole for inserting a super-glue fuming wand. Of course we include the case to hold the tent, along with the poles, stakes, and connectors. This portable and easy to transport tent has a remarkable set-up time of less than 3 minutes.

- #09022 Fuming Tent Kit

Chemical Enhancement & Development

Fuminator Stix

The heat from your hands, and the moisture in your breath activates our iodine Fuming Stix when you blow through them. Turns prints brown temporarily so they can be photographed without permanently altering the evidence. For use on fresh prints on any porous surface.

#05089 Fuming Stix, 6 pk.

The Original Fold-A-Lab™

Our Fold-A-Lab's fully-enclosed, simple-to-use, fuming chamber allows you to place evidence on a rack or hang items using evidence clips. Just place our fuminator wand through the pre-drilled hole on the side of the lab, fill the air-tight chamber with fumes, then seal with the rubber cork. Or if you're short on cartridges, you can use our HotShots™. This reusable and break-resistant acrylic 10" x 10" x 18" unit comes with built-in racks, hinged doors, suspension rods, and evidence clips in a convenient carrying case and sets up in seconds.

Works with Fuming Wand and HotShots!

#05465 Fold-A-Lab Kit

Test Print Tabs

When you want to seal up a fuming chamber, peel off the back and place over the opening to stop fumes from escaping. Or place a fingerprint on the die-cut circle and put on the inside of the chamber and when you see your fingerprint, you have a go that the evidence has processed. Simple concept, awesome dual-use device.

#05468 Test Print Tabs, 50 pk.

Xpandit™

Simple, yet effective tool that allows you to easily expand a bag for fuming and photographing. Keeps your fingerprints off the bag and maintains evidence integrity.

#95000 Xpandit

Silver Nitrate

Typically used on porous materials such as cardboard, light-colored raw wood, paper, etc. after it has been processed with Ninhydrin. Reacts to the chlorides (salt) in latent prints by producing silver chloride which turn grays when exposed to light. Be sure to photograph the developed prints immediately as a dark-brown stain will permanently fill the background. Not suitable for items that have been wet. Can possibly interfere with examinations for body fluids, handwriting, trace evidence, etc.

#05075 Silver Nitrate, 25 gm. \$69.35

No International Shipping*
*FEDEX Only!

Hazardous Goods

Ninhydrin

Reacts with amino acids in fingerprints to provide fluorescent visibility. If used alone, Ninhydrin produces immediate results and is used for blood-contaminated fingerprints on porous and non-porous surfaces. Using as a second step to DFO, additional fingerprints can be developed. With the addition of DFO in the process, it is recommended for use on papers and porous surfaces.

- #05060 Ninhydrin Spray, 8 oz.
- #05073 Ninhydrin Crystals, 25 gm.
- #05074 Ninhydrin Crystals, 100 gm.
- #15078 Ninhydrin 1 Gallon

Rhodamine 6G

An exceptionally strong fluorescing stain for cyanoacrylate and is considered the dye of choice for many latent print examiners. Dissolve in water or solvents for a liquid dye, or add into magnetic powder to form a fluorescent magnetic powder. Make sure to super-glue fume before using. It is recommended to underfume rather than overfume. Overfuming will result in a heavy white residue that will produce prints with little to no detail. This dye fluoresces best in the 450-480 nm range.

- #05081 Rhodamine 6G, 25 gm.

DFO

This simple and very effective reagent is recommended for use on papers and porous surfaces such as cardboard, raw wood, plasterboard, wall coverings, etc. Reacts with amino acids in latent fingerprints and requires fluorescent examination after use. Will detect fingerprints that are several years old.

- #06017 DFO, 1 gm.
- #06018 DFO, 5 gm.

Gentian Violet

This dye-staining solution that contains Crystal Violet produces a purple-colored image in reaction to the fatty substances of sebaceous sweat. Very effective when developing latent prints on the adhesive side of various types of tapes. Will also work on a variety of non-porous surfaces that have been contaminated with grease and oils. Unsuitable for treating large areas.

- #05101 Gentian Violet, 25 gm.

Nite-Site™ Kit (Luminol)

Luminol locates traces of blood that are invisible to the naked eye. This sensitive chemical is used after attempts have been made to clean suspected areas. Simply apply with a sweeping motion from our pump sprayer. In the dark, latent blood traces will emit a blue glow. This chemical has also been used to uncover footwear patterns. Mix with enough distilled water to bring the fluid level up to the shoulder of the bottle.

#06020 Nite-Site Kit, 16 oz.
#05097 Nite-Site Kit, 8 oz.

Basic Yellow

Used to enhance latent fingerprints that have been developed with cyanoacrylate on non-fluorescent, multi-colored surfaces. Latent prints will fluoresce a bright yellow/green and can be viewed between 365 nm and 485 nm using an alternate light source.

#06019 Basic Yellow, 25 gm.

Amido Black

Amido Black, also known as Naphthalene Black 12B or Naphthalene Blue-Black, stains the protein in blood-contaminated latent prints turning them a blue-black color. Does not detect the normal substances found in latent prints and therefore must be used in sequence with other techniques. Not to be used as a conclusive or presumptive test since it could potentially react with other proteins.

#05085 Amido Black, 25 gm.

When handling chemicals, proper eye, hand, and body protection is highly recommended. Check out our Biohazard and Safety Supplies section (pages 132-136) as well as our goggles page (page 58) for some of the appropriate gear. Look for a full list of downloadable MSDS sheets for all products at www.lynnpeavey.com!

Chemical Enhancement & Development

BLUESTAR® Forensic

BLUESTAR® Forensic is a new reagent designed to reveal bloodstains that are invisible to the naked eye. Can be used over and over to fluoresce the same stain. BLUESTAR is non-toxic and **WILL NOT ALTER DNA**.

- #15080 Tablets, 4 Application Test Kit
- #15086 Tablets, 8 Application Test Kit
- #15083 Mini-Kit
- #15084 Training Solution 8 pk.
- #15085 Training Solution 4 pk.
- #15097 Hexagon OBTI 24 pk.
- #15082 Forensic Kit
- #15081 Forensic Magnum-Drop Ship Only

Hazardous Goods

EcoSpray Kit

Working similar to a paint sprayer, EcoSpray can be combined with BLUESTAR Forensic Magnum for an even coating and distribution of fluids. It uses a micro-sprayer with a disposable gas pressure reservoir to give you an even coating of liquid. EcoSpray is Hazard free, environmentally safe, non-flammable, non-explosive, non-toxic, odorless gas and safe for the ozone layer.

- #95289 EcoSpray Kit
- #95290 EcoSpray Refill

No International Shipping
No Air

Air Pump Sprayer

Simply fill the 210 ml bottle with any of our chemical liquids such as Ninhydrin, WetPrint, or Silver Nitrate, give the container a few pumps, and off to spraying evidence you go! Comes with three assorted spray tips for jet stream, fine, and heavy spray patterns.

- #13010 Air Pump Sprayer

3M™ Novec™ Engineered Fluid

Developed by 3M™ scientists as a CFC replacement, Novec™ is a safe, non-ozone-depleting solvent that is known for producing the crispest ridge detail on porous surfaces.

Use as a carrier solvent with Ninhydrin or DFO. Its low surface tension, low viscosity, and high density allows the fluid to more thoroughly and easily carry the dissolved DFO and Ninhydrin to the edges of the fingerprint. And since it doesn't absorb moisture, the ridge diffusion of the print is maximized. Use on a wide range of inks and substrates and experience minimal smearing or running. Bottom line-You'll find more fingerprints with Novec Fluid...**GUARANTEED!**

- #15002 3M Novec Fluid, 1gal.

information

Wet Print™ (Small Particle Reagent)

Who says you can't lift latent prints off wet surfaces? Don't make the mistake of trying to apply regular powder to the item. This could damage your brush, or even worse, destroy the latent print.

Wet Print, technically known as a Peavey blend of Molybdenum Disulfide, is a physical development practice where small, black particles attach themselves to the fatty substances that are left in fingerprint residue. Works great on non-porous surfaces such as waxed and plastic-coated paper, metal, glass, polyethylene bags, etc.

If time permits, it is highly recommended that once developed, the latent print is lifted when dry. Note: Do not use an accelerated drying method such as a hair-dryer. This will create water spots underneath the tape, which could destroy the latent print.

Latent prints will dry dark on light-colored surfaces and silver on dark-colored surfaces. Also available in white.

- #05680 **Wet Print Starter Kit, Black**
(Includes 16 oz. Black Wet Print, two 16 oz. bottles with spray nozzles.)
- #09719 **Wet Print Starter Kit, White**
(Includes 16 oz. White Wet Print, two 16 oz. bottles with spray nozzles.)
- #09723 **Wet Print Combo Kit**
(Includes 16 oz. Black and White WetPrint, one 16 oz. bottle with spray nozzle.)
- #05682 **Wet Print refill, Black, 16 oz.**
- #09721 **Wet Print refill, White, 16 oz.**
- #05696 **Wet Print, Black, 2 oz. with spray nozzle**

Safekeeper Evidence Drying Cabinets

The Safekeeper is a containment cabinet for the drying and storage of forensic evidence. Airflow through the cabinet gives a constant drying medium for evidence and contains any fumes, odors, or particulates given off while drying. The polypropylene corrosion-proof design can be easily cleaned after use.

Includes: all pre-filters, main pre-filters, HEPA filter, dust-free Carbon filter, airflow alarms, shelves, and heavy duty lockable wheels.

- #95107 **30" Wide Safekeeper**
- #95108 **36" Wide Safekeeper**
- #95127 **48" Wide Safekeeper**
- #95124 **60" Wide Safekeeper**
- #95125 **72" Wide Safekeeper**
- #95157 **60" Wide Duplex Safekeeper**
- #95247 **72" Wide Duplex Safekeeper**
- #95256 **96" Wide Duplex Safekeeper**

Capture™ Portable Fuming System

This system quickly fixes latent fingerprints at the crime scene for quick on the scene developing. All of the components are combined in this portable system. The heater to heat the super glue, a shatter resistant clear protective chamber to contain the fumes, an exhaust blower, and a particulate/carbon exhaust filter.

- #95420 **Capture Portable Fuming System**

Chemical Enhancement & Development

DWS Downflow Fingerprint Workstation

The DWS is specifically designed to provide a small bench mounted unit with unrestricted access. A unique downflow pattern allows you to work in close proximity over the evidence being examined.

Includes: fluorescent lighting, airflow alarm, and stainless steel worksurface.

- #95110 DWS 24" wide unit
- #25009 HEPA/Carbon main filter DWS 24"
- #25010 Pre-filters, 6/pk. DWS 24"
- #95123 DWS 36" wide unit
- #25020 HEPA/Carbon main filter DWS 36"
- #25021 Pre-filters, 6/pk. DWS 36"
- #95160 DWS 48" wide unit
- #25025 HEPA/Carbon main filter DWS 48"
- #25026 Pre-filters, 6/pk. DWS 48"

Cyanoacrylte Fuming Chamber

This fuming chamber is designed to process the evidence by using the Cyanoacrylte Fuming Method. The unit will provide an environment that is controlled for developing latent fingerprints. This unit incorporates two heating elements that can operate individually or together. These heating elements will operate with a maximum temperature of 230 degrees Fahrenheit. The fuming chamber is approximately 4.0 cubic feet and contains a locking door with key access. The clear sealed door allows for easy viewing so that overprinting does not occur. The built in hanging rod and clips allow for easy development.

Demensions: 30.5" W x 12" D x 22" H

Start up kit contains: fuming trays, Cyanoacrylate and cleaning pads

- #95438 Cyanoacrylte Fuming Chamber

Cyanoacrylte Fuming Chamber

This fuming chamber is designed to process the evidence by using the Cyanoacrylte Fuming Method. The unit will provide an environment that is controlled for developing latent fingerprints. This unit incorporates three heating elements that can operate individually or together. These heating elements will operate with a maximum temperature of 230 degrees Fahrenheit. This chamber has three levels of hanging rods and clips. The fuming chamber is approximately 6.5 cubic feet and contains a locking door with key access. The clear sealed door allows for easy viewing so that overprinting does not occur. The built in hanging rod and clips allow for easy development.

Demensions: 30" W x 12" D x 34" H

Start up kit contains: fuming trays, Cyanoacrylate and cleaning pads

- #95437 Cyanoacrylte Fuming Chamber

Chemical Enhancement & Development

Protector™ Evidence Drying Cabinets

The Protector Evidence Drying Cabinet is a stainless steel lined cabinet is durable and provides a secure ventilated area to dry evidence such as clothing, bedding and marijuana. Equipped with HEPA and carbon filtered exhaust to protect personnel from the exposure to biohazards while eliminating any odors. The cabinet has an ultra violet light provides secondary disinfection of the interior cases to prevent cross contamination. This ensures the integrity of the DNA samples. Some of the features of this product are:

- Key activated UV light switch
- Epoxy-coated steel exterior
- Storage area 36" w x 26.50" d x 12" h
- Safety glass door with magnetic seal that accommodates a user supplied padlock
- Three position switch: fan ON, OFF and ultraviolet light ON
- Please note the HEPA and Carbon filters are sold separately.
- Overall dimensions: 36" w x 28" d x 79" h Electrical requirements 115 volts, 60 Hz, 3 amps

- #95404 Evidence Drying Cabinet
- #25039 HEPA Filter
- #25040 Carbon Filter
- #25041 Prefilter (door) pk. 6
- #25042 Prefilter (cabinet) pk 6
- #95405 Starter Kit

(starter kit includes: security tags, door prefilters, cabinet prefilters, hanging clips, paper liners, and germicidal cleaner)

Safefume™ Cyanoacrylate Fuming Chamber

Safefume fully-automated Cyanoacrylate Fuming Chamber is designed to safely and effectively process items using the cyanoacrylate fuming method. It provides a controlled environment for processing latent fingerprints on most non-porous surfaces while eliminating exposure to hazardous fumes. The Safefume uses an advanced "touch computer screen" that monitors and controls humidity levels, hot plate fume cycle time, door lock and internal circulation fans. All parameters are preset, but can be user-controlled by simply touching the computer screen. Once fuming is complete, a purge cycle evacuated harmful vapors through its high capacity carbon filter system. All filters included.

- #95115 30" Wide Safefume (Bench top 47" tall)
- #95116 30" Wide Safefume (Freestanding 85" tall)
- #95117 48" Wide Safefume (Bench top 47" tall)
- #95118 48" Wide Safefume (Freestanding 85" tall)
- #95146 60" Wide Safefume (Freestanding 85" tall)
- #95154 60" Wide Safefume (Benchtop 47" Tall)

UV-Box with UVC Radiation

The UV-Box is a benchtop chamber that has the evidence and the user in mind. This chamber is safe for decontaminating evidence. This chamber is equipped with high-efficiency UV lamps that are positioned within the cabinet to produce short wavelength UV light to destroy exposed surface DNA and bacteria, leaving the evidence free of contamination. Operator safety is assured by a UV absorbing door window and other interlocking safety features. This chamber features a UV timer, hanging rod and interior shelf.

- #95449 UV-Box with UVC Radiation, 15" x 15" x 15"
- #95450 UV-Box with UVC Radiation, 24" x 24" x 30"

PurAir™ Advanced Forensic Fume Hood

The PurAir™ range of advanced forensic workstations are designed for those forensic laboratories that won't want to change filters between powder and chemical applications. With both HEPA and Carbon high-capacity filters, the PurAir units are ideal for departments who process a large volume of evidence with both powders and chemicals. The PurAir features continuous airflow display, low airflow alarm, 360 degree visibility, inter-filter test port, self-locking front sash, cable pass-through ports, epoxy-coated steel construction for unsurpassed strength, clean changing filter system, and optional back-up safety filter system (ANZI Z9.5 requirement). One main filter required (not included). Many other options available.

- #95112 Purair 10, 29½" x 27½" x 47¼"
(internal height 31½")
- #95113 Purair 10XL, 34" x 27½" x 47¼"
(internal height 31½")
- #95114 Purair 15, 40" x 27½" x 47¼"
(internal height 31½")
- #95126 Purair 25, 59" x 27½" x 47¼"
(internal height 31½")
- #25014 HEPA and Carbon high capacity main filter
- #25013 Pre-filter, 6/pk.
- #95172 Hang rods, 6/clips

Protector™ Downdraft Powder Station

This system keeps users safe by containing the powders during the fingerprint processing. The open-sided, open-top work station provides unrestricted operator movement and accommodates oversized evidence.

- #95422 Protector Downdraft Powder Station 2ft
- #95421 Protector Downdraft Powder Station 3ft

PurAir 5™ Basic Forensic Fume Hood

The PurAir 5 Ductless Fume Hood is ideal for containing common chemicals and powders used in forensic evidence analysis and processing. The hood can be fitted with either a carbon filter for chemical vapors or HEPA filter for powders. The unit comes standard with low airflow alarm and front access door for easy filter replacement. All clear sides allow for 360 degree visibility and a self locking hinged front sash. This unit is compact and light weight and can be placed in mobile scene vehicles or set up in a crime scene. The work area has an optional removable spillage tray which can be easily cleaned. Integral lighting is standard on all units. One main filter required.

- #95109 PurAir 5, (2 ft. wide)
- #25011 HEPA main filter for powders
- #25012 Carbon main filter for chemical processing
- #25013 Pre-filters, 6/pk.
- #95111 Removable spillage tray with lip
- #95223 Steel cart with lockable casters

Forensic Light Sources

Forensic Light Sources

BattleLite™ Forensic Light
Rugged. Tactical. Effective.

When we came up with the first "Alternate Light Source" for forensic use...we made some pretty bold claims. The same holds true here.

Our BattleLite™ was created with punishing environments and unheard of capabilities in mind. Governments worldwide use our BattleLite™ in the fight on terrorism...and now we have **permission to exclusively offer it to law enforcement.**

The 3-watt light is set at 455nm, and with the orange goggles will easily illuminate body fluids, trace, and fluorescent powdered fingerprints in all lighting conditions. Tactical in size at less than 5 ¼" long and comes with a hi-lo switch and diffuser lens (to use if desired).

There are less expensive similar forensic lights out there. Test one for yourself...ours has at least 2-3 times the output, more variable control and features military-grade rugged construction. Dust, shock and weather resistant.

We guarantee that it will prove to be the most powerful, most versatile, and most effective tool in your arsenal. The BattleLite™ Kit (includes the turbo-charged 455nm light source, diffuser lens, goggles, 2 sets of lithium metal batteries, foam insert and tactical carrying case.)

LIMITED TIME OFFER: Order a kit today, and we'll include an extra blinding 3-watt white light head that can be interchanged for the blue light.

BattleLite Forensic Light
#56028 **BattleLite 3 Light ALS**
#56031 **BattleLite Blue**
#56033 **BattleLite Green Head**
#56038 **BattleLite UV Head**

Forensic Light Sources

UltraLite™ ALS Kit

**FREE
7-DAY TRIAL!**

The UltraLite-ALS is approved for purchase with Department of Homeland Security Grant money!

Contents of Kit:

- 1 - UltraLite™ light unit
- 2 - Rechargeable lithium batteries which last approximately 2 hours each
- 1 - ALS power pack
- 1 - Universal A/C input power cord (in case you forget to charge your batteries)
- 1 - Orange goggles
- 1 - Twin-battery charger
- 1 - Custom-designed zippered "holster pack" that adjusts perfectly to any size waist

- #20076 UltraLite Peavey Kit
- #20081 UltraLite ALS Complete Kit
- #20084 Optional UV Magnum Head
- #20087 UltraLite Peavey Plus Kit
- #20093 UltraLite Peavey Plus Kit w/ hard case

The **most** powerful, serious-level, solid-state forensic alternate light source. This portable device features an intensity range of 400 mW's to an astounding 1000 mW's of power as well as a wavelength range of 420 to 480 nanometers. At the size of a medium banana (weighing approximately 300 grams), its compact design is especially beneficial for processing stairways, ceilings, or the inside of a vehicle.

Features Blue-Merge Technology™ (BMT) which is the merging of forensic wavelengths to optimize viewing ranges. By producing the perfect blend, you'll only need to go over the crime scene once to gather nearly 100% of your evidence work!

The BMT head features three light bulbs totaling 120 LED's. Each light bulb has an expected life of 53,500 hours each...that's pretty much a lifetime warranty!

Did we mention that the UltraLite™ is also extremely durable? It is composed of a special magnesium material that makes it virtually unbreakable if you were to drop it.

Our Peavey Plus Kit features the same great benefits as our regular UltraLite kit, but with the added bonuses of a UV Magnum Head and yellow goggles for viewing. Additional options available.

We also offer the UltraLite-ALS Complete Kit (pictured above). Included in this kit: UltraLite Case, Foam Insert, 100-240 VAC Power Supply, 12VDC Power Supply (Vehicle), Electrical Cord (20'), Battery Charger, 3 Battery Packs, Power Pack, UltraLite Handle, BMT Head, UV Magnum Head, Green Head, Red Head, Yellow Head, Amber Glasses, Red Glasses, Yellow Glasses, 3 Glasses Bags, Operators Manual.

Forensic Light Sources

Wraparound Goggles

There are always times the position of the shield to light is not what you need so we offer these very hip Wraparound Goggles that allow you to use the Alternate Light Sources in any position. Our popular orange goggles work best in most situations for evidence enhancement. The Wraparound Goggles also come packaged in a pouch.

#09208 Orange Goggles
#09205 Red Goggles
#09207 Yellow Goggles

UV Goggles, UV Spectacles & UV Face Shield

Eye and face protection are essential when working with short or long-wave UV sources so we've given you several styles of comfortable eye and face protection to choose from.

Spectacles

Made of high-impact resistant polycarbonate. The top and side-shield design provide full UV protection for the eyes. Easy on/easy off eyeglass styling.

#20062 UV Spectacles (no pouch)
#00048 Pouch for Spectacles

Goggles

Our UV goggles provide the best contrast control available to remove the blue-haze glare from long-wave ultraviolet light sources. These goggles are ventilated for your personal comfort. Adjustable straps permit one size to fit all.

#05432 UV Goggles (no pouch)

Face Shield

Offers the most coverage with the face and neck fully protected. Features a one-size-fits-all head mount and a flip-up shield for comfortable extended wear.

#09563 UV Face Shield

Viewing Plates

Ideal for viewing latent prints or other types of evidence fluorescing. These 8 x 8 plates are large enough to accommodate a broader viewing area, yet small enough to easily store away. Excellent for training or group demonstrations.

#20038 Orange 8 x 8 Plate
#20036 Red 8 x 8 Plate
#20037 Yellow 8 x 8 Plate

Forensic Light Sources

MicroBlue™

Illuminate body fluids (semen, saliva & urine) and fluorescent fingerprints. Illuminates up to 465 nanometers. Use with our fluorescent powders to experience the most amazing details! Comes complete with 3 AAAA batteries that provide 8 hours of use.

- #95003 MicroBlue, Amber Shield, Case
- #56703 AAAA Batteries, 2 pk
- #95009 Replacement Amber Shield
- #99008 Replacement Carrying Case

- ✓ Forensic nurses have used the MicroBlue for examinations of rape survivors. They have found the small, portable unit to be less intimidating than other products.
- ✓ Many departments have given all their duty personnel the MicroBlue because it's a great tool for a quick initial sweep of a scene.
- ✓ And on the lighter side, others have found the MicroBlue truly shows the cleanliness of hotel rooms (some have even gotten a free room after showing the manager!)

Vector 7™ Kit

The Vector 7™ UV Kit is a rechargeable ultraviolet light source that uses the most advanced technology to magnify light from 7 small LED's to form a powerful (405 nm) forensic flashlight. The ideal use for fluorescent fingerprint powders. The kit comes complete with a 1 oz. red fluorescent PowderJet, Feather Duster, cigarette lighter adapter, recharger and Vector 7 UV unit.

- #20035 Vector 7 UV Kit
- #95080 Vector 7 w/charger

UV LED Black Light Source

This compact 3.7" (l) x 1.19" (w) unit will fit in most pockets and kits. 12 UV LED bright bulbs fluoresce at distances over 20 feet with a wave output 385 nanometers. Easy toggle on-off switch allows for continuous use. Operates on three AAA batteries (not included). Weight 2.5 oz. Perfect for activation of fluorescent inks/dyes and scanning a crime scene for foreign materials.

- #05943 UV Blacklight
- #05839 AAA Batteries

Forensic Light Sources

Blue Light Special Kit

Instantly adapt your Mag-Lite to a brilliant 30,000 candlepower forensic light source. The white light from these flashlights are converted to 450 nanometers. Normally hard-to-see evidence appears crisp and clear. View fibers, hair, body-fluid stains, and fluorescent fingerprints. We've created the Blue Light Special Kits to adapt instantly to your flashlight and to your budget!

#05651 Basic Kit for Mag-Lite

Contents of Kit:

- Blue Light Lens
- K-42 Viewing Shield
- Instructions
- Lens-Cleaning Brush & Solution
- Carrying Case with Foam Insert

Blue Light Accessories

The tripod shown here provides sturdy support for your camera. We've fabricated discs made of the Viewing Shield material into filters or Lens Adapters for your camera. Just select the right Lens Adapter and screw it into your camera lens.

- #06203 Tripod
- #05659 49mm Lens Adapter
- #05658 72mm Lens Adapter
- #05660 52mm Lens Adapter

Streamlight Ultra Stinger

This 7" compact Streamlight Ultra Stinger Flashlight packs a whopping 15,000 Candlepower. The nickel-cadmium battery is rechargeable over 1,000 times! One of the brightest flashlights out there for its size.

- #20089 Streamlight Ultra Stinger
- #20090 Streamlight Battery Stick

Mag-Lite Flashlights

What can you say about flashlights? You don't need to say anything when it starts with Mag-Lite. Mag-Lite Flashlights are made with aircraft-grade aluminum. They have spot-to-flood focus, sealed on/off buttons, krypton lamps, and a stored replacement bulb. In addition, every Mag-Lite—from the Mini-Mag to the big 5-cell monster—has a limited lifetime warranty. All this plus a price that is very competitive!

- #05719 2 A-cell batteries (Mini-Mag)
- #05725 3 D-cell batteries
- #05727 4 D-cell batteries
- #05733 4 C-cell batteries

Forensic Light Sources

Cordless Spotlight

Powerful 2 million candle power spotlight that produces a bright path light. Swivel locking handle moves to a pistol-grip position. Also includes a sturdy multi-position ABS stand. Charges with included AC and DC power adapters.

#05834 Cordless Spotlight 2m

High Intensity UV Lamp

100 watt UV lamp, rated at 5000 hours, features Cool Touch plastic, heat resistant housing, pistol grip handle and a special bulb protector. The lamp head can rotate 360 degrees when attached to the base for hands-free operation. Includes 8 ft. primary and secondary cords.

#05437 Hi Intensity 100 watt Longwave
UV Lamp 115V
#06460 Funnel lamp accessory

McClamp

The new McClamp acts like an extra pair of hands when it comes to photographing forensic evidence in the lab or at the scene. With 4 different versions of the McClamp available, one (or all!) will surely meet your needs.

There are 3 combinations of the clamp on clamp, and a stick/clamp version, all with a strong flexible arm capable of holding a variety of items in varying positions. The small "holding" clamp on items #95218, #95219 and #95220 has inner neoprene (rubber) jaws for holding delicate objects. The large "mounting" clamp opens to 2 inches, while the standard "mounting" clamp opens to 1-1/4". The stick version of the McClamp, #95218, has a fiberglass rod designed to be driven into the soil for fieldwork.

All sizes work well together to achieve the best stability and get the most angles. Use a McClamp to hold a magnifying glass over a fingerprint that needs to be photographed or use a combination of the McClamps to hold several pieces of evidence fragments to show how they fit together.

- #95219 Standard mounting clamp w/small holding clamp (1)
- #95220 Large mounting clamp w/small holding clamp (2)
- #95222 Large mounting clamp w/standard mounting clamp (3)
- #95218 Fiberglass stick w/small holding clamp (4)

Forensic Light Sources

Ultraviolet Hand Lamps

Combine the superiority of our fluorescent powders with the performance of our Ultraviolet Hand Lamps to get the best possible results. Our ultraviolet hand lamps feature longwave light intensity at 365 nanometers that is ideal for scanning a wide variety of physical evidence.

UV Battery Hand Lamp

This unit is designed for easy fatigue-free use. This convenient self-contained, battery-powered lamp (two 6-volt lantern batteries) has a carrying handle built into the unit. It also has a two-way switch that operates a regular flashlight and the ultraviolet light. Battery and charger not included.

- #05431 UV AC Battery Hand Lamp
- #54311 6 Volt Battery
- #09254 6 Volt Rechargeable Battery
- #09253 Recharger for 6 Volt Battery (shown)
- #54402 Replacement bulb for #05431
- #09564 12 Volt car adapter

UV AC Hand Lamp

This hand-held, compact yet powerful longwave unit is easily transported to any crime scene. The unit plugs into any regular wall outlet for fast easy scans. Specifically designed to go with #20061 Lamp Stand.

- #05430 UV AC Hand Lamp
- #20061 Lamp Stand
- #54301 Replacement Bulb

Compact UV Lamp

Compact UV Lamps (4 watt lamps) fit comfortably in the hand. The Compact UV Lamp comes in a 12-Volt style (two 6-volt batteries).

- #54400 Compact UV Lamp, LW
- #54401 Replacement Bulb

EL Series 6 Watt UV Lamp

Manufactured with a durable, extruded-design metal housing and scratch resistant powder paint. Specifically designed to go with #20060 Lamp Stand.

LW=365 nanometers.

SW = 254 nanometers.

- #05429 EL Series UV Lamp, 6W, LW/SW
- #20060 Lamp Stand

Forensic Light Sources

Theft Detection Powder

Use our Feather Duster to lightly apply the Theft-Detection Powder to objects you think a suspect might touch or take. Later, check their hands with any of our alternate light sources (the MicroBlue works great) and if they touched that object and got the powder on their hands, it will fluoresce! This powder is not meant to "stain" and therefore, must be evaluated with a light source fairly soon after touching.

#05103 Theft Detection Powder, 1 oz.

Cloud Dome Pro Kit

Accurately photographs reflective or difficult to light small objects such as knives, documents, fingerprints, serial numbers, guns, bullet casings or items with reflective backings such as fingerprint cards. Kit includes cloud dome, domicile bag, pro bracket, universal bracket, 7" straight extension collar, and angled extension collar.

The Cloud Dome Reflector is also available. By using this two-sided reflector in combination with the cloud dome, you can achieve a variety of different lighting effects.

#20027 Cloud Dome Pro Kit
#20028 Cloud Dome Reflector

Eagle-Eye Aerial Camera System

The Eagle-Eye Camera System consists of a telescoping aluminum pole that extends to 16 ft., a ball-and-joint pivot, a tripod-type camera mount, and a braided-steel cord that serves as a camera safety restraint.

The system is remarkably easy to use. Just secure any 35mm camera with an automatic timer, Polaroid Spectra camera, or video camera to the mounting screw and position the pole to get the taken-from-above pictures you need. For example: with a wide-angle 28mm lens, you can get a field of view that measures about 14 x 18 ft.

#08001 Eagle-Eye Camera Mount
#07999 8' pole

Lens thread sizing

Look on the inside of your lens cap for thread size

or

Look on a filter you have...the size should be printed on it

or

Measure the diameter of your lens with a metric scale.

If you measure 4.9 cm, that means you need a 49mm lens.

Forensic Light Sources

X-Loupe MGP4-Plus

Forensic Microscope/Digital Camera System

We've combined the features of a virtual bomb-proof 12.1 megapixel digital camera... with a powerful 455nm forensic light source. Use it in the forensic light mode for photographing fluorescent fingerprints, body fluids, hair, fibers, bone chips, etc. with automatic digital accuracy and precision...every time...instantly.

Then, when you are shooting powdered latents, blood spatter, tool marks, etc., that require perfect, even white lighting, you simply flip a switch...and with professional, focused and 30X digital precision...takes the shot every time...again, instantly.

No more shooting through an orange lens or shield, no more dealing with lighting issues and over or under exposure. Perfect 1:1 scaled shots are all made almost automatically. Just set it down directly on the evidence surface and shoot!

This little digital camera attachment is engineered with top quality optics throughout... and while not a toy, is priced and as easy to use as one.

Designed to work with the Canon D10 digital camera that is shock, water, breeze, dust **and dummy proof** so that any crime scene officer can operate the system. The system attaches to the camera instantly with a magnetic adapter. (Makes an excellent choice for a stand alone crime scene digital camera as well.)

More info on our website...a truly amazing forensic tool.

- #20133 Complete system including the Canon D10 and MGP4-Plus attachment
- #20134 MGP4-Plus (without digital camera)*
- #20107 Canon D10 forensic camera

Visual Aids & Rulers

Visual Aids & Rulers

Vinyl Rulers

Reusable rulers featuring crosshair circles at each end to assist you in photogrammetry corrections. Available in white, black, gray, clear, fluorescent or combo. Measures in inches and millimeters.

- #05145 White Vinyl Ruler, 6", 10 pk. (1)
- #05146 Black Vinyl Ruler, 6", 10 pk. (2)
- #05160 Clear Vinyl Ruler, 6", 10 pk. (3)
- #05150 Gray Vinyl Ruler, 6", 10 pk.
- #09242 Combo Vinyl Ruler Set, 6", 10 pk.
- #05220 Fluorescent Vinyl Ruler, 6", 10 pk.

Stick-It™ Magnetic Rulers

Flexible magnetic 6" rulers are perfect for sticking on automobiles, metal doors, file cabinets, etc... The flat non-glare finish eliminates reflections when photographing.

- #95367 White Magnetic Ruler, 10 pk.
- #95368 Black Magnetic Ruler, 10 pk.
- #95369 Fluorescent Green Ruler, 10 pk.
- #95370 Gray Magnetic Ruler, 10pk.

Folding Scale

Three 12 inch rulers in one! This versatile ruler can extend as long as 36 inches or as short as 12 inches to accommodate the size of evidence to be photographed.

- #05225 Folding Scale

6" Padded Rulers

Flexible magnetic 6" rulers are perfect for sticking on automobiles, metal doors, file cabinets, etc... The flat non-glare finish eliminates reflections when photographing.

#95036 6" Padded Rulers, 15 per pad

Same Plane Scale

This scale is designed so it can be elevated to the same height/level as the evidence. This allows for both the scale and evidence to be in focus when photographs are taken.

All same plane scales come with space available for placement of identifying information such as case number, badge number, etc...

- #05421 Same Plane Scale, 40 pk

Visual Aids & Rulers

Peavey Photo Rulers

Ideal for use in photographs featuring bite marks, injuries, toolmarks, or any other small evidence. Our L-Scale features a 90-degree scale printed on ridged, vinyl plastic and allows you to measure in millimeters. Our T-Scale runs perfectly perpendicular to the ground and features a hanging hole for use on vertical surfaces. Measures in both inches and millimeters.

#09952 L-Scale (1)
#95067 T-Scale (2)

Forensic Star™

An innovation that offers a technically feasible method to evaluate and photograph the spatial relationship between forensic measurement scales and evidence. Place two L-scales (#09952) in the grooves of the Forensic Star™ at 90° angles to each other. Locate in close proximity of the evidence. The free standing design provides for a clearer field of photography and also allows for evaluation of depth by developing a reproducible "Z" axis. Each "star" is intended to be retained with the evidence to avoid cross contamination. Comes 10 to a package. L-Scale rulers not included.

#95197 Forensic Star, 10 pk

Reversible Scale

Designed for tire track and footwear impressions. Printed black on white on one side and white on black on the other. Glare-free finish ideal for a variety of lighting conditions and measures in both inches and millimeters.

#02126 Reversible Scale, 300 x 150mm

Combo Ruler Pack

Combo Ruler Pack includes one of each of the following:

- Reversible Scale Ruler
- 6" White Vinyl Ruler
- 6" Black Vinyl Ruler

#95276 Combo Ruler Pack

GEO Cards

A quick way to determine spatial relationships through geometry. Long story short, here is a "cocktail napkin" idea that came from an NCIS Agent that made it as another marketable good idea. These 12" X 12" pre-printed cards should be placed as shown in the foreground of your overall crime scene photos. Print your picture out in any magnification, then take a ruler and pen and extend the lines as shown directly on the photo. By forming this grid directly on your photo, you can easily tell the relative spatial determination of objects or points of interest. Saves a ton of time at the scene, and it really works!

#95455 Padded in sets of 40 cards

Visual Aids & Rulers

Mini-Rulers™

Our Mini-Rulers™ may be small, but they stand up to the biggest jobs! Simply pick the color that best contrasts to the surface you are photographing. Features a light, adhesive removable backing. Available in white, black, and fluorescent. Our fluorescent Mini-Rule is the perfect companion to our fluorescent magnetic powders (pg. 8) and our MicroBlue™ (pg. 59).

- #95089 Black 2 cm Rulers, 150/roll (4)
- #95090 White 2 cm Rulers, 150/roll (5)
- #95091 Fluorescent 2 cm Rulers, 150/roll (6)
- #95419 Gray 2 cm Rulers, 150/roll
- #95037 White 2" Rulers, 150/roll (1)*
- #95087 Fluorescent 2" Rulers, 150/roll (2)*
- #95088 Black 2" Rulers, 150/roll (3)*
- #95418 Gray 2" Rulers, 150/roll*
- #95150 Fluorescent 6" Rulers, 50/roll *
- #95151 White 6" Rulers, 50/roll*
- #95152 Black 6" Rulers, 50/roll*
- #95417 Gray 6" Rulers, 50/roll*

* Measures in both inches and millimeters.

Ruler Tape

This roll of 30' tape features a repeating 12" ruler pattern. The non-permanent adhesive allows you to conveniently place this tape on walls, windows, autos, etc. without damaging the surface. Measures in both inches and millimeters.

#05299 Ruler Tape, 30' roll

Ruler Labels

These 3 1/2" pre-cut ruler labels come in white, gray or black with a peel-off backing. Features a writeable surface for documenting your case number and date.

- #05273 White, 3 1/2", 25 pk. (1)
- #05274 Gray, 3 1/2", 25 pk. (2)
- #05279 Black, 3 1/2", 25 pk. (3)

Fluorescent Ruler Labels

This heavy-duty fluorescent ruler features a 90-degree scale which measures in both millimeters and inches. Its adhesive backing allows you to mount on various surfaces. When using with our fluorescent powders and the BattleLite ALS™ (pg. 56), this ruler will fluoresce, so when photographed, you'll be able to see the scale and the fluorescent print. That's like a 2-for-1 deal!

- #06235 Fluorescent Ruler Labels, 20 pk.

Professional Measuring Wheels

Measure off the distance of just about anything with these Professional Measuring Wheels! Just hold the handle and push the wheel along the ground. With every fraction of a revolution on the wheel, the readout gives you the distance traveled. After measuring one distance, just re-set the counter and start again. When finished fold up the unit and store it in your car or locker.

We also offer lightweight cases to protect your measuring wheels. The twin wheel Rolatape case accommodates item numbers 06029 and 06030.

Items 06029 & 06030

- Measures 9,999 feet, 11 inches (or 9/10ths of a foot with engineers' models).
- Handle telescopes down to 17 inches to fit into a toolbox or standard briefcase.
- Adds while rolling forward and subtracts when pulled in reverse.

Item 06031

- 5-digit, easy-read magnified counter (9,999 ft.) that subtracts in reverse.
- Heavy duty, polycast wheel with clean three-spoke design.
- Curved, telescoping handle adjusts to comfort level.

- #06031 Big Wheel Rolatape (1)
- #06030 Twin Wheel Rolatape (2)
- #06029 One Wheel Rolatape (3)
- #09052 Twin Wheel Case (accommodates items 06029 & 06030)
- #95257 Big Wheel Case

Standing Tape

The Standing Tape's length is 6.5 feet and its size resembles that of an average tape measure. The (matte finish) numbers are printed in large bold type face in two different color schemes (black/white on one side, and red/white on the other) that can be seen from over 75 feet away!

The coolest feature about the Standing Tape is that it can be removed from its dispenser and it stands up by itself! There's even a little hole in the end for a pin or thumbtack to help steady it on a wall.

#95249 Standing Tape

Closed Reel Measuring Tape

The Closed Reel Measuring Tape comes in a high impact metal case with a folded handle for quick retrieval of tape. Fiberglass tape will not rot. Measures in inches and feet on one side and metric on the other.

#95092 30 meter/100 foot tape measure

Open Reel Speed Rewind Tape Measure

300ft Open Reel Tape Measure features two sides: Standard English and Engineers'. It won't rust, is lightweight, and has superior strength. Also features durable double-fastened housing with super-fast 3 x 1 rewind.

#95344 Speed Rewind Measuring Tape, 300'

Visual Aids & Rulers

Forensic Photo Scale

This 2-piece scale is designed to assist the forensic photographer in the photo documentation of physical evidence such as latent prints, tool marks, etc. The circular and square cutouts allow the scale to surround the evidence being photographed. The 2-piece set includes black on gray and fluorescent orange on gray printed in both metric and inches. Comes in a black leatherette carrying case.

#95131 2-Piece Forensic Photo Scale

Forensic Mirror

This 3" x 5" mirror is useful for directing light into crevices and side lighting footwear and tire impressions. The opposite side features a gray scale that is identical to our Forensic Photo Scale with the exception of no cuts. This allows small objects such as bullets to be placed on the scale within the printed circles for accurate photo documentation. Comes in a black leatherette carrying case.

#95132 Forensic Mirror

Inspection Mirror with Telescoping Arm

The Inspection Mirror is equipped with a telescoping arm that extends to 30". It folds up into a nice compact size for easy transport and storage. The cushion handle is designed for comfort handling.

#95391 Inspection Mirror with Telescoping Arm

Sonin

These amazing devices send out narrow beams of sound waves that bounce off solid objects and send the information into the hand-held set. Custom electronics and a microprocessor convert the elapsed time into a distance measurement and display it on the easy-to-read display. The Laser Targeting Range Finder has a laser pointer to accurately display where you are measuring to. And the Combo Pro will measure up to a whopping 250 feet using a target. It is perfect for outdoors, with a capacity of seven storage memories.

#95017 Sonin Combo Pro (1)
#95253 Laser Target Range II (2)

Disto™ Laser Meters

Measure distances accurately – even over obstructions – and determine tilts quickly with the Leica Disto™ D330.

Features: Smart Horizontal Mode, Multifunctional End Piece, Power Range Technology™ and Display Illumination, and multiple other functions

The Leica DISTO™ D5 is designed with many functions and features to make measuring easier, particularly when you are working outdoors.

Features: Digital Pointfinder, Tilt Sensor, Power Range Technology, Spot-on Measurement, Detailed display

Both come with batteries and wrist strap. Other accessories available.

- #95399 Disto D330 Laser Meter
- #95352 Disto D5 Laser Meter

Digital Microscope

The Carson MM-740 zPix 200 digital microscope allows you to display magnified images right on your computer screen. The powerful 26x - 130x zoom magnification allows you to see fine details such as fingerprints as never before!

Software CD included. Compatible with PC or Mac.

- #20106 Digital Microscope

ID Magnifiers

Magnify your ability to solve the case. Virtually unbreakable, these lightweight, no-glass forensic magnifiers capture all available light to increase subject illumination. The base is concave to avoid contact with the evidence.

- #07025 4X, 2.5" Diameter (1)
- #07035 4X, 3.5" Diameter (2)
- #20049 3X, 2" Diameter (recessed bottom)

MagniLamp™ Magnifier

MagniLamp™ is a hand-held, fully adjustable stand magnifier with a built-in light which allows you to see all the details. Its 2X optic main lens and 4X optic spot lens produces sharp, crystal-clear images everytime. Requires 2-AA batteries (not included).

- #20072 MagniLamp Magnifier

Magnifying Clip-On Glasses

These magnifying lenses clip right onto your eyeglasses allowing you to see intricate details of the evidence while keeping your hands free. Hinged acrylic lenses flip up when not in use.

- #20022 3X Magnifying Clip-On Glasses

Visual Aids & Rulers

Complete Optivisor

This lightweight head-mounted magnifier will allow you to use both hands freely while examining fingerprints or evidence. The one-size-fits-all adjustable headband provides a comfortable and firm hold. Features ground and polished lenses to meet precision optical standards.

#05686 2.5X Complete Optivisor

Full Sheet Magnifier

This 3X magnifier is ideal for magnifying larger pieces of evidence due to its large surface area. Also works well when reviewing full-size documents.

#20050 3X Full Sheet Magnifier

Hand Magnifier

This 2.5x/5x Hand-Held Evidence Magnifier will help you locate and examine such evidence as latent prints, tool marks, hairs, fibers, documents, blood stains, serial numbers and much more. The Hand-Held Magnifier has a 3" compact, easy to use 2.5x power Magnifier with a 5x power bifocal lens.

#20119 2.5X/5X Handheld Magnifier

10x Lighted Magnifier

Locate and examine evidence such as latent prints, tool marks, hairs, fibers, documents, blood stains, serial numbers and much more. This handy magnifier is equipped with powerful 10x lens and built-in white and UV lights which allow you to see micro-printing on currency, checks and other important documents. Use the thumb switches to switch between white LED and UV LED lights.

#20130 10x UV/White Magnifier

Illuminated Pocket Magnifier

This illuminated pocket magnifier features a small built-in light for viewing evidence in low-light conditions. Its 4X magnification captures a high-quality optic view. Includes 2 - AAA batteries.

#05689 4X Illuminated Pocket Magnifier

Folding Stand Magnifiers

The 5X optics of these folding stand magnifiers produce distortion-free viewing. The base of our folding stand magnifier features clearly marked graduation lines, while our folding scale magnifier features both an inch and millimeter scale printed on the base.

- #05688 5X Folding Stand Magnifier (1)
- #20053 5X Folding Scale Plastic Magnifier (2)

Regula RE-1007 Magnifier

Designed for classification and investigation of fingerprints and small objects. It has excellent central and side sharpness, brightness and contrast with correct color range, magnification and convenience in use. This easy-to-use magnifier features 5x magnification, high illumination, lighted optics and measuring scales.

- #06215 Regula RE-1007 Magnifier

Magnifying Glass 4.5X Classifier

This German-made magnifier is reported to have the finest optics and the most distortion-free field lens available to the CSI market today. Produces a crystal clear view and sharp focus across the entire 21/8" diameter field. The coding discs (listed below) are exclusively designed to fit this magnifier.

- #05685 4.5X Classifier without Discs
- #56851 Henry Disc (1)
- #56852 Battley Disc (2)
- #56853 Henry-Battley Disc (3)
- #56854 Cross-Hair Disc (4)

Tweezer Magnifier

Pick up your evidence while magnifying it at the same time. Works well for picking up fibers, hair, or other small pieces of evidence.

- #20052 4X Magnifier w/ Tweezer

Stand Magnifiers

These magnifiers are featured in three different sizes with varying powers of magnification. The transparent base allows ambient light to illuminate the evidence being examined.

- #20051 10X Stand Magnifier (1)
- #20057 7X Stand Magnifier (2)
- #20059 5X Stand Magnifier (3)

Visual Aids & Rulers

Photo ID™ Cards

Gives the story for crime scene photos. Includes a gray scale graduation chart on the right side and a scale on the other. A full color chart is included at the bottom for 50% and 100% color matching. We've even included space for additional information like weather conditions, f-stop, seconds, lens, and location.

- #06677 4" x 6", 100 pk.
- #06679 8 1/2" x 11", 100 pk.

Bloodstain/Photo Template

Our bloodstain template's purpose is to highlight the importance of bloodstains and to document them through microphotography. This template, which is specially die-cut from non-glare pressure-sensitive stock, will stick to any wall, floor, or ceiling. It has its own pre-printed scale, information blanks, and instructions. It's also available in a generic format for non-bloodstain photos. Sold in packages of 15.

- #05967 Bloodstain Templates, 15 pk.
- #05968 Evidence Templates, 15 pk.

Evidence Flags & Ribbon

These flags and ribbon are perfect for marking evidence in visually obstructed areas where height of the evidence markers is essential.

- #20069 Evidence Flags, 100 pk
- #20127 Orange Marking Ribbon 12 rolls/bx
- #20128 Orange Marking Flags, 1000/bx

Crime Scene Cones

Our inexpensive regular crime cones have many uses, such as blocking traffic and aiding crime scene photographs. Each bright-orange plastic cone is 9" tall and comes nested in a stack of eight. Our 2" disc cones are perfect for placing on those not-so-straight areas such as hillsides. They also have the added benefit of not being toppled over by the wind as they are flat in design.

- #05406 Regular Cones 1-8
- #05405 Regular Cones 9-16
- #05404 2" Disc Cones 1-25
- #05407 2" Disc Cones 26-50

A Frame Photo Markers

Guaranteed for easy identification and assures capturing the exact location regardless of camera angle. Ideal for use at crime and accident scenes, they are lightweight, cost-efficient, one-piece, plastic in a stackable, handy-to-store-and-use design.

- #09900 White 1 - 15 Markers, 3"
- #09902 Yellow 1 - 15 Markers, 3"
- #09906 White 16 - 50 Markers, 3"

- #09856 Yellow 16 - 50 Markers, 5"
- #09860 Yellow 51 - 99 Markers, 5"
- #02250 Yellow Blank Markers, each, 3"
- #09918 White A - Z Markers, 3"
- #09919 Yellow A - Z Markers, 3"
- #09920 Yellow 1-99 Markers, 3"
- #09862 White A - Z Markers, 5"
- #09864 Yellow A - Z Markers, 5"
- #09868 Yellow Arrow Markers, 20pk, 5"
- #09924 Yellow Arrow Markers, 20pk, 3"

A Frame Disposable Photo Markers

#09925 Disposable 1-50 Tent Markers, 3"

Photo Flags & Numbers

Our white 4" x 5" photo flags with 18" stems are perfect for mounting in the ground. Features bold, black 3" numbers on a white background.

Our Photo Numbers are big, bold, easy to read and have sticky backs that will adhere to virtually any evidence or surface—even walls! Individual 2" x 3" labels, numbered 1-9.

- #05147 One Set of Numbers, 1-9
- #07415 One Set of Numbers, 10-20
- #05816 Five Sets of Numbers, 1-9, 45 total

Photo ID Stickers in Books

Convenient and compact way to carry your photo ID stickers. The adhesive backs allow these stickers to be placed and peeled off virtually any type of surface. Large numbers measure 2 1/4" tall x 1 3/4" wide. Small numbers and arrows are 1" x 1".

- #09613 Large Number ID Booklet, 25 sheet pad
- #09617 Small Number ID Booklet, 25 sheet pad
- #09619 Arrows Booklet, 25 sheet pad
- #05816 2"x3" Numbers 1-9, 5 each

CSI Magnetic Board

Create a crime scene sketch easily with The Board™ for Crime Scene Investigation. Just hand-sketch with more than 650 scaled and graphically-detailed magnetic symbols (such as furniture, people/victims and weapons) on a magnetic 11"x19" layout grid surface.

The system comes in a durable binder (12" x 10" x 1" thick) making it a portable on-the-scene tool. After a sketch is completed, a digital camera shot or photocopy of the board provides a high quality permanent record.

- #95229 CSI Magnetic Board

Visual Aids & Rulers

Photo Documentation Kit

Anything and everything you could possibly want when taking photos at a crime scene. Comes complete with yellow tent markers 1-50; yellow arrow set; orange gear case; 6" vinyl rulers, L-scale; 30' metric tape; 60' Endless Rule Tape; 2 cm photo scales; white 2" Mini-Ruler; 25' tape measure; Laser Target Range Finder II; 6 x 4 photo ID card; photo stickers; evidence photo template; photo flags and 2 x 3 photo numbers.

#20058 Photo Documentation Kit

Sidewinder Digital Scale/Calculator

The Sidewinder Digital Scale has a capacity of 300 grams and measures in 0.1 gram accuracy. This portable digital scale can also read in grams, pounds, ounces, troy ounces, carats, grains and pennyweight. The cover is also an expansion tray. The stainless steel tray with raised lip make this portable digital scale easy to clean from one measurement to the next.

#95414 Sidewinder Digital Scale/Calculator

A&D Weighing Scales

These scales are ones that you won't be afraid to do your weighing on!

The EK3000I Compact Balance Scale features a large LCD display making it easy to read at a wide viewing angle or dark environment. Its portable compact size, light weight, rugged body, and sealed key panel protects against dust and spills, and features a security ring to prevent theft. Measures grams to 0.1; ounces to 0.005; pounds to 0.0005; with a total weight of up to 6.614 lbs. AC adapter included.

The GF6000 scale provides the fastest response speed in its line...an unbelievable one second. Features a splash-proof keyboard and display, interval time setting, and auto power on function. Measures grams to 0.1; ounces to 0.005; pounds to 0.0005; with a total weight of up to 13 lbs. AC adapter included.

The SK2000 is fast, accurate, and portable. Features include a stainless steel, removable weigh pan, splash and rust-proof, and auto power off. Measures grams to 0.1; pounds to 0.002; with a total weight of up to 4.4 lbs. AC adapter optional (see below).

The HL100 Digital Scale features clear LCD display (8 mm), accurate reading in wide temperature range, portable (6 type "aa" batteries, not included), net weight/stability indication, low battery indication, separate keys for power and re-zero, auto power off, 100g capacity and comes in a standard carrying case. AC adapter optional (see below).

Evidence Packaging

Evidence Packaging

Evidence Kraft Bag Kit

Cover all your packing needs with this exclusive kit. You don't have to worry about balancing your budget and your inventory with 100 minimum count evidence bag orders. Now it's easy to stay well-stocked. In one convenient box, you have what you need to secure evidence. Whether you stash it at the station or keep it in the trunk of your car...we've got you covered.

#10112 Evidence Kraft Bag Kit

Contents of Kit:

- 100-Kraft Evidence Bags:
 - 25, #12, 7" x 4" x 14"
 - 20, #25, 8" x 5" x 18"
 - 50, #1/6, 12" x 7" x 17"
 - 5, #50, 16" x 12" x 35"
- 10-Instant I.D. Envelopes:
 - 5, 6" x 11" x 3"
 - 5, 9" x 13" x 3"
- 5-Kraft Long-Item Bags: 9" x 60"
- 1-Box Tape w/Disposable Dispenser: 2" x 110' roll
- 200-Red Zipr-Weld 7" Strips "Evidence"
- 1-Black Evidence Marker

Pill, Rifle, and Evidence Boxes

These sturdy boxes are great for storing evidence or shipping it to the lab. The general-sized and rifle/shotgun boxes come pre-printed with all the necessary documentation and have a 200 lb. max capacity. The smaller pill boxes have a handy slip and sleeve design.

- #05252 8" x 8" x 8", 15 pk.
- #05253 12" x 12" x 12", 15 pk.
- #05254 18" x 18" x 18", 15 pk.
- #05255 Rifle/Shot Gun, 9 pk.
50" x 6" x 4"
- #05258 Pill Box 15 pk.
3" x 1 3/4" x 3/4"
- #05261 Pill Box, 15 pk.
3 1/2" x 2 3/8" x 1 3/8"

Evidence Packaging

Evidence Tubes and Adjusta-Tubes

Our evidence tubes are ideal for syringes and knives. Each evidence tube has an end cap with a styrofoam cork for protecting sharp ends.

Adjusta-Tubes screw together and hold the evidence firmly in place.

- #05000 Small Diameter Tubes 12 pk. (7/8" x 8")
- #05002 Large Diameter Tubes 8 pk. (3" x 12")
- #06300 Adjusta Tube 12 pk. (1 3/4 x 4" to 8")
- #06301 Adjusta Tube 12 pk. (2 1/2 x 8" to 14")
- #06302 Adjusta Tube 12 pk. (2 1/2 x 14" to 24")

Call for shipping information

Evidence Tote Trays

Made of 160-lb. polyethylene these evidence tote trays are chemical and moisture resistant as well as puncture and tear resistant.

- #05172 Small (18" x 13" x 11")
- #05171 Medium (23" x 15" x 16")
- #05173 Large (30" x 19" x 12")

Evidence Markers

While life is not permanent, our Evidence Markers are. We offer what's hard to find anywhere else: a permanent ink marker that won't dry out and that will mark on everything, even slick plastic bags. When the marker's tip needs to be remoistened, simply press it on a hard surface to activate the ink-dispensing valve within. You can actually hear the liquid ink in its reservoir by shaking! Truly unique. Colors available: black and red.

- #05263 Black Marker
- #05264 Red Marker
- #09135 China Marker, Black
- #30096 China Marker, White

Evidence Packaging

Manila Evidence Envelopes

Simple evidence envelope with chain of custody on the front. Ask for quantity pricing.

#06241

Manila Envelopes 9" x 12", 100pk

Instant I.D.™ Envelopes

The Instant I.D. is perfect for items containing biological stains of blood, semen, saliva, perspiration, etc. Because of its heavy-duty construction and large window, it's also ideal for any item where instant visual identification can reduce the number of times the envelope is opened for examination. Both have a 3" wide expansion feature. (Seal it with *Zipr-Weld Tape* shown on pages 88-89—but remember to air-dry the evidence first.)

#05167 Small 6" x 11", 100 pk.

#05165 Large 9" x 13", 100 pk.

Zipr-Top™ Bags and Gripr-Top™ Bags

These bags started the Lynn Peavey Company over 50 years ago. Our heavy-duty polyethylene Zipr-Top (4 mil.) and Gripr-Top (2 mil.) Bags are ideal for packaging any non-organic item (including most narcotics). The quality is there, and you can feel it in your fingers. You will also be amazed at the sparkling clarity and the oyster-tight zippered closure. Labels not included.

4 Mil.—Zipr-Top™

- #05098 2½" x 3", 100 pk.
- #05102 3" x 5", 100 pk.
- #05106 4" x 6", 100 pk.
- #05116 6" x 8", 100 pk.
- #05120 8" x 8", 100 pk.
- #05122 8" x 10", 100 pk.
- #05124 9" x 12", 100 pk.
- #05132 12" x 15", 100 pk.
- #05134 13" x 18", 100 pk.

2 Mil.—Gripr-Top™

- #05062 9" x 12", 100 pk.
- #05068 12" x 15", 100 pk.
- #05476 18" x 24", 100 pk.

Evidence Packaging

Evidence-Packaging Kit

Here's your opportunity to sample a wide variety of our evidence-collection items for less than minimum order quantities! We've assembled an assortment of our most popular sizes, styles, and types of evidence-packaging materials that will prepare your investigators for almost any packaging situation. Narcotics, biologicals, firearms, long items, liquids, solids, documents, and miscellaneous items have all been taken into consideration in the selection of the kit contents. Each kit also includes our very popular 30x Evidence Microscope that will help you examine the evidence you recover.

Contents of Kit:

- 20-Jumbo Evidence Seals
- 10 ea.-Large and small Instant I.D. Envelopes
- 10 ea.-2½" x 3" and 4" x 6" Zipr-Top Bags
- 15 ea.-6" x 8" and 9" x 12" Zipr-Top Bags
- 10-#1/6 Kraft Bags
- 2-Long-Item Bags
- 50-Evidence Tags/Labels with 20 ties
- 5 ea.-1-oz. and 2-oz. Screw-Top Plastic Jars
- 1-Black Evidence Marker
- 100-7" Zipr-Weld Evidence Tape Strips
- 3-Vinyl rulers
- 15-Ruler labels
- 1-Roll of Ruler Tape
- 1-200' Roll Flexible Barrier Tape
- 10-Check Protectors
- 1-30x Evidence Microscope
- 3-8" Evidence Tubes
- 2-12" Large Evidence Tubes
- 5 ea.-1-oz. and 4-oz evidence cans
- 1-Splitback Red Evidence Tape 1¾" x 108"

Evidence Packaging

Strap-It Boxes

We have Strap-It Boxes for handguns, rifles/shotguns, and knives. These extra sturdy boxes feature a perforated bottom panel for securing items. These boxes come with a pre-printed evidence label right on the box for full documentation.

- #05855 Knife Box, 16" x 3" x 2½", 20 pk.
- #05853 Handgun Box, 13" x 8" x 2", 20 pk.
- #05525 Rifle/Shotgun Box, 50" x 9" x 4", 20 pk.
- #05673 Nylon Ties, 11¾", 100 pk.

Strip-N-Grip™ Evidence Pouches

These pouches have everything: crystal-clear walls; a pre-printed, fully documented "write-on" evidence label; a built-in perforated inventory tab (for stapling to the property sheet); and heavy-duty 3 mil. polyethylene construction. To seal them, simply strip away the protective tape liners, then fold over so the adhesive strips grip together for a permanent bond.

- #07708 6" x 9", 100 pk.
- #07710 9" x 12", 100 pk.
- #07712 12" x 16", 100 pk.
- #07714 4" x 6", 100 pk.

Arson Bag

These bags are made of 1.6 mil. nylon — so there is no potential for contamination of any propellants that might be present in the evidence. (Plastic bags can cause contamination.) These bags can withstand continuous temperatures between 33° and 350° F.

- #05115 5" x 10", 100 pk.
- #05121 12" x 18", 100 pk.
- #05123 20" x 30", 50 pk.
- #51214 12" x 24", 100 pk.
(Labels not included)

Prisoner Property Bag

These items have the same basic features as the Strip-N-Grip Evidence Pouches above. Our Prisoner Property Bags have pre-printed information areas where you can detail the prisoner's possessions, including how much money he or she was carrying when booked. These 3 mil. bags also feature prisoner signature lines (incoming and outgoing).

- #08567 9" x 12", 100 pk.

Evidence Packaging

Evidence Bench

This evidence bench is constructed of professional-grade steel and is designed to be used by multiple users processing a high volume of forensic evidence. The top is constructed of a chemical resistant epoxy. The integrated Kraft paper dispenser and lockable storage compartments offer convenience and security.

#95448 Evidence Bench.

Kraft Paper in Rolls

When bags and boxes won't do, turn to our durable Kraft Paper in Rolls. Available in both white and brown, 50-60 lb weight.

- #09404 Brown Kraft Paper, 36" x 720' roll
- #09405 Brown Kraft Paper, 24" x 720' roll
- #09410 White Kraft Paper, 36" x 940' roll
- #95081 36" Paper Roll Dispenser
- #95082 24" Paper Roll Dispenser
- #95163 24" Paper Roll Dispenser w/ Cutter
- #95373 48" Paper Roll Dispenser w/ Cutter

Kraft Long-Item Bag

When you need to store a rifle, a pool cue, a baseball bat, or other long items of evidence, these are the bags to use. Available in heavy-duty breathable Kraft paper, and high-clarity 4-mil. polyethylene. Sized at 9" x 60". Evidence labels included.

- #05206 Kraft Paper, 10 pk.
- #05207 Polyethylene, 10 pk.

Tubular Kraft Paper in Rolls

Two layers of brown Kraft paper in 9" wide, 500' rolls that are sealed at the sides. Ideal for long-item evidence collection and when other containers just don't cover the item.

#02065 Side-Sealed Kraft paper Rolls, 9" x 500'

GunLock™

Our reusable GunLock serves one important purpose; preventing accidents in the property room or during examination. Fits most handguns in seconds. Includes a chart of different stringing methods and includes 20" of indestructible nylon rope.

#95004 GunLock

Evidence Packaging

Polyethylene Tubing

Customize your own bag in any size! Simply cut the length you need, seal the end (with our heat sealers shown at left), and you've got an evidence bag ready for filling. Tubing is 4 mil.

- #05117 Roll, 6" x 520'
- #05118 Roll, 12" x 1050'
- #05119 Roll, 24" x 1050'

Heat Sealers

Our heat sealers are designed to fuse the openings of the plastic bags together, leaving a tamper-proof and leak-proof seal. Replacement pads and heating elements available for all sizes.

- #05195 Sealer, 8"
- #05197 Sealer, 12"
- #95035 Sealer, 24-26"
- #05198 Sealer, 24", foot operated*
*extra shipping cost apply

Whale Mouth Jars

These wide-mouthed, clear plastic jars are great for storing powders or smaller piece of evidence. They have screw tops that form an airtight seal.

- #05001 Whale Mouth Jars, 2 oz., 15 pk.

Metal Evidence Cans

Perfect for packing smaller, fragile evidence, such as bullets, glass fragments, narcotics, etc. The tight, friction-fit lid also includes a cardstock label for easy write-on identification of contents. (For evidence integrity, use our Evidence Tapes, pages 88-95.)

- #05245 ½ oz., 25 pk.
- #05247 1 oz., 25 pk.
- #05249 2 oz., 25 pk.
- #05251 4 oz., 25 pk.

Clear Evidence Jars

Our jars provide a rigid, airtight evidence packaging. Each jar is molded from crystal clear, rugged styrene plastic with a tight-fitting screw-top cap. A built-in liner forms a tight seal when screwed down to help prevent leakage.

- #05720 1 oz., 15 pk.
- #05722 2 oz., 15 pk.
- #05721 4 oz., 15 pk.
- #05724 8 oz., 15 pk.
- #05726 16 oz., 15 pk.

Evidence Packaging

Strip-N-Grip™ Plain Pouches

Keeping it simple with plain Strip-N-Grip 2 mil. Pouches.

- #05835 6" x 8", 100 pk.
- #05753 9" x 12", 100 pk.

Currency Pouch

Our 2 mil. Currency Pouches have full documentation on the front in terms of currency and coins even down to how many nickels and pennies were recovered. Our Strip-N-Grip design ensures there are no unauthorized loans.

- #05831 Currency Pouch, 9"x12", 100 pk.

Check Protector

These are among the toughest you can use to preserve bad checks for subsequent investigation and analysis. Each is made from extra-heavy-duty 5 mil polyethylene plastic, with crystal-clear results. 6" x 10" in packs of 100.

- #05974 6" x 10", 100 pk.

Heat-Seal Evidence Bags

Whether you seal them with heat or evidence tape, these bags are a must have. Use for just about everything except if it's biological in nature. Made of high-clarity 4 mil. polyethylene. Labels not included.

- #05177 6" x 8", 100 pk.
- #05189 8" x 12", 100 pk.
- #05179 9" x 12", 100 pk.
- #05181 12" x 20", 100 pk.
- #05183 10" x 16" x 3", 100 pk.
- #05228 20" x 20", 250 pk.

Vapor Barrier Pouches

These pouches ensure that contaminating vapors will not leak through into the bag. These exceptionally strong, crystal-clear, heat-sealable 4.5 mil. pouches are absolutely liquid, air, and vapor-tight.

- #05185 4" x 6", 100 pk.
- #05187 10" x 12", 50 pk.
- #05188 9" x 16", 35 pk.
- #05190 12" x 16", 25 pk.
- #05351 8" x 12", 50 pk.

Evidence Packaging

Metal Arson Cans

Our Arson Cans seal with airtight lids that are designed to package items contaminated with possible accelerants. Any remaining accelerants will evaporate within the airtight compartment and then your laboratory can draw a headspace sample for evaluation. (Use our labels, on page 92.) Seal with *Zipr-Weld* (pages 90-91).

Evidence Seals

Evidence Seals

Zipr-Weld Split-Back™ Evidence Tape

Virtually impossible to remove, our Zipr-Weld Tape will shred, rip or stain the surface to indicate even the slightest signs of tampering. Meets all security requirements for sealing evidence packages by the ASCLD Laboratory Accreditation Board. Truly a staple item for evidence units and crime labs.

The split-back liner makes application (especially with gloves) a breeze. Crush-proof plastic dispenser features a belt clip and handy viewing window. Documentation needs are solved by the writable surface and translucent film.

Ask how easy it is to have us print your custom imprint...FREE!

*Our split-back design allows for simple application!

- #75007 Red, EVIDENCE with white stripe
- #75013 Custom Blue or Red*
- #75016 Custom Blue or Red with white stripe*

*12 roll minimum to customize

Zipr-Weld™ Evidence Tape

Use for sealing evidence packages with the (required) tamper indicating seal. Specialized translucent film welds itself to all surfaces, forming a "skin-like" bond. Physical attempts at tampering cause the tape to rip or shred, and chemical tampering cause bleeding and staining. Original non split-back liner design in an easy to use dispenser. 1 3/8" X 108'. FREE custom imprints!

- #05365 Red, EVIDENCE
- #05367 Blue, EVIDENCE
- #88887 Red or Blue, Custom*
- #53651 Red, EVIDENCE with white stripe
- #53671 Blue, EVIDENCE with white stripe
- #88884 Red or Blue, Custom* with white stripe
- #88894 Red or Blue, Custom* split-back in box

*9 roll minimum to customize

New 2011 Formula!

Free Customization!

And if that's not enough, we love customizing our tape with your department's name...so we do it for FREE! (For minimum orders of nine rolls of 108' or twelve rolls of 54' tape).

Call 800-255-6499 to order the best evidence tape on the market!

Evidence Seals

Zipr-Weld 7" Strips

Red or blue, white stripe or not, with a variety of imprints, stock or custom... the choices are almost endless. Strip off the excess baggage of larger rolls when you need smaller strips for smaller evidence. Sized at 1 3/8" x 7" with handy dispenser boxes of 100. Peel-off tabs at the end make application a breeze.

- #66697 Original Red, "Evidence"
- #66672 Red, "Sealed Evidence Do Not Tamper"
- #66675 Blue, "Sealed Evidence Do Not Tamper"
- #66673 Red, "Security Seal Do Not Tamper"
- #66676 Blue, "Security Seal Do Not Tamper"
- #66671 Red, "Lab Sample Do Not Tamper"
- #66674 Blue, "Lab Sample Do Not Tamper"
- #66679 Red, "Confidential"
- #66678 Blue, "Confidential"
- #66689 Yellow, "Fragile"

- #66695 Red, "Evidence", White Stripe
- #66684 Custom, Blue or Red, White Stripe, 100 box (10 box min.)

Non-Residue "Open Void" Evidence Labels

When you begin to remove this Non-Residue "Open Void" Evidence Label, it reveals OPEN VOID. Clearly see if your evidence has been tampered with. The label doesn't leave a mark on the evidence.

- #30084 Red, 3 3/8" x 3/16"
- #30085 Blue, 3 3/8" x 3/16"
- #30086 Red, 4 5/8" x 1 1/2"
- #30087 Blue, 4 5/8" x 1 1/2"

Customized TamperFree™ Security Seals

Protect your most precious evidence or confidential papers... not to mention your peace of mind with our customized TamperFree™ Security Seals. Like our Zipr-Weld tape, any attempts at removing will result in ripping or shredding. With chemical attempts, the seal will stain and bleed. With these custom seals, you can have us print whatever message you like! Seals measure 1 3/8" x 7" and come in 60 count pks.

- #77703 Red Customized Imprint Seals

Evidence Strips

Our pressure-sensitive, tamper-indicating evidence strips are the only way to mark your evidence! These 3/4" x 7 1/4" strips are printed red on white and come in convenient 100 pks.

- #05005 Evidence Warning Strips (1)
- #05006 Evidence Process Strips (2)
- #05007 Evidence I.D. Strips (3)

Evidence Seals

Evidence Labels

Our pressure-sensitive evidence labels with peel-off-backing are second to none. These labels are printed black on white and help provide pertinent information. One roll of 100.

- #05280 Pressure Sensitive Labels, 1 3/8" x 1 3/8" (1)
- #05288 Evidence Warning Labels, 1 3/8" x 1 3/8" (2)
- #05289 Evidence Seal Labels, 1 3/8" x 1 3/8" (3)
- #80069 Evidence I.D. Labels, 2 1/2" x 1 1/2" (4)
- #05357 Evidence I.D. Labels, 2" x 3 3/8" (5)
- #05282 Evidence ID Dots (6)

Evidence Tape

Our Evidence Tape is a great deterrent to intentional or accidental openings of valued evidence. This 1" x 4 1/2" pressure sensitive tape is printed black on white.

- #05292 "Do Not Tamper" Tape, 500" roll (1)
- #05291 "Evidence" Tape, 500" roll (2)
- #05290 Evidence I.D. Tape, 500" roll (3)

Thermal Barcodes

Single or double numbered barcode labels measuring 1" x 2". Sticks to virtually any surface and printed to your specifications!

- #08801 Single Barcode, 1000/roll
- #08803 Double Barcode, 500 pairs, roll

Jumbo Evidence Seals

These oversized tamper-indicating evidence seals are perfect for sealing large items such as bags or doors. They feature a permanent adhesive with a peel-away liner and measure 4" x 15".

- #05270 Jumbo Seals, 100 pk.

Evidence Seals

Tie-on Evidence Tags

You wouldn't travel without tagging your bags and you wouldn't have evidence without the security that comes with using our Tie-on Evidence Tags. Manila card-stock with reinforced eyelets.

- #05287 6½" x 3½", 100 pk.
- #05999 3¼" x 1½", 100 pk.
- #05675 Tamper-Proof ties, 7", 100 pk.
- #05673 Tamper-Proof ties, 11¼", 100 pk.

Self-locking Evidence Marker Tie Tags

Yellow polypropylene ties are weather-resistant, strong, self-locking and easy to use. 2" x 3" area for marking evidence.

- #99042 9" Yellow Tie Tag, 100 pk.

Evidence Labels

Each of our evidence labels features a special tamper-proof adhesive. Great for any item. Each 3½" x 6" label is individually sheeted with a peel-off tab. Call for quantity pricing.

- #05275 Evidence Labels, 100 pk.
- #05283 Chain of Possession Labels, 100 pk.

Evidence Tag/Label

Our evidence tags/labels can either be used as a tag or as a stick-on label. They measure 4" x 6" and are as stiff as cardboard.

- #05277 Tag/Label, 100 pk.
- #05675 7" Tamper-Proof Ties, 100 pk.

Arson Labels

These labels are on fire! The perfect compliment to our Arson Bags (check out page 82), these 3½" x 6¼" adhesive labels allow for full documentation of the evidence.

- #51212 Arson Labels, 100 pk.

Evidence Seals

MuscleWrap™ UV Tape

MuscleWrap™ is a general purpose evidence sealing tape that is strong, sticky and hand tearable. It has an invisible UV Security Ink message that deters counterfeiting, verifies authenticity and prevents tampering. MuscleWrap fluoresces brightly when illuminated by a UV light to reveal the security seal.

- #07201 **Blue and White MuscleWrap**
(2" x 165' roll)
- #07202 **Custom MuscleWrap***
(2" x 165' roll)
- #07203 **Blue and White MuscleWrap**
(3" x 165' roll)
- #07204 **Custom MuscleWrap***
(3" x 165' roll)

*36 roll minimum to customize

Box Sealing Evidence Tape

Our super-adhesive box sealing tape is perfect for sealing samples that you are sending away to the lab. Custom imprinting is also available.

Fire Debris Label

Use this Fire Debris Label to accurately label evidence from a fire scene. This easy adhesive label will stick right to any evidence packaging supplies that you may have at the scene. 100/roll.

- #30114 **Fire Debris Label**

Biohazard Labels

When collecting any evidence that can possibly be classified as biohazardous...these labels are just what you're looking for. Use on chemically treated evidence, body fluids, blood, syringes, etc. The only danger associated with these labels is not using them!

1. Biohazard Identity Labels

Universal biohazard symbol on a 1" x 3" pressure-sensitive label. These labels have a space to write in the specific hazard. Printed black on fluorescent orange. 250/roll

#05817 Biohazard Identity Labels

2. Large Biohazard Labels

Universal biohazard symbol on a 4" x 5" pressure-sensitive label. Printed black on fluorescent orange. 50/pk

#05819 Large Biohazard Labels

3. Small Biohazard Tamper-Indicating Strips

These adhesive-backed, serrated strips are designed to show obvious signs of damage if even slightly disturbed. Printed black on orange. Size ¾" x 4⅝". 250/pk

#04992 Small Biohazard Tamper-Indicating Strips

4. Large Biohazard Tamper-Indicating Strips

Similar to item 04992 above—but quite a bit larger. These labels are 1⅝" x 7¼". Printed black on red. 100/pk

#66670 Large Biohazard Tamper-Indicating Strips

5. Small Biohazard Labels

Simply affix these labels to any items containing blood or body fluids. Complies with state and federal regulations. Features the universal biohazard symbol on a 1½" x 1½" pressure-sensitive label. 250/roll

#05818 Small Biohazard Labels

6. Biohazard "Handle with Gloves" Label

To be placed on evidence that is possibly biologically contaminated where gloves are required to handle the evidence. Provides a highly visible warning "Handle with Gloves". These 1" x 3" pressure-sensitive labels are printed black on fluorescent orange. 250/roll

#05294 Handle with Gloves Labels

7. Biohazard Evidence Labels

For evidence that has been chemically treated. Provides a highly visible black on fluorescent orange warning "Do Not Touch". These pressure-sensitive labels are 1" x 3". 250/roll

#05293 Biohazard Evidence Labels

What's so Magical about the new BlackMagic™ Ink Pad?

No More Mess.

At The Scene

At The Scene

FLEX-Cuff Restraining Ties and Accessories

These disposable restraints offer exceptional strength in excess of 300 pounds. Features a strength barb system which make these cuffs virtually pick-proof. Its nylon construction is designed to prevent injuries and provides maximum containment for the arm, wrist, leg, or ankle.

- #95021 10 Ties
- #95022 Bulk Package, 1,000 Ties

Crime Scene Chalk

Standard White Chalk is perfect for creating outlines and marking evidence and points of interest in daytime settings. Reflective Chalk creates reflective markings that are illuminated by photoflash or flashlight. Perfect for night-time photography, Reflective Chalk can be used for creating outlines and marking evidence and other important points of interest. Simply draw any marks and photograph normally. The chalk will reflect a bright white.

Each stick of chalk is 1" diameter and 4" long.

- #95261 White Chalk 3 pk.
- #95262 Reflective Chalk 3 pk.
- #95263 Assorted Chalk 2 pk.

Magnetic Pick-up Tool 38"

Powerful Grip-On pickup tool can hold up to 50 lbs.! Extends from 24" to 38" with a 3" magnetic head.

- #95400 Magnetic Pick-up Tool 38"

Fisher Metal Detectors

Fisher's low cost, high performance metal detector gives you all the extras that count: automatic tuning, variable trash rejection, headphone jack, built-in speaker and deep-seeking, lightweight 8-inch search coils. Plus, it weighs less than 3 pounds and features a cushioned arm rest.

- #09830 Fisher F2
- #09824 Hard Case
- #09832 Fisher 1280x All Purpose (underwater detector)
- #09831 Fisher CZ21 Underwater Detector
- #05023 CSI 250 Ground Search Metal Detector

Bullet Trajectory Kit

This is the ultimate laser Bullet Trajectory Kit on the market, hands down! Designed to provide accurate projectile trajectories with minimal effort, this kit has everything you need and more!

The included laser trajectory pointer incorporates the latest technology in micro-electronics and advanced laser optics. The laser pointer, which is Dfs Class IIIA, emits an output power of less than 5mW (in compliance with CDRH Standards) powered by two AAA batteries. The trajectory pointer will produce a laser beam with a visibility of up to 1200 feet.

This laser trajectory kit also features a unique on/off switch on the housing itself that allows ease of use and optimum control.

Items included included:

- High output laser pointer
- 4-piece $\frac{5}{16}$ " steel protrusions rod set w/ connectors
- 5 O-Rings
- Tripod Mount
- Radiant Colored Nylon Twine 160" spool
- 2 AAA Alkaline Batteries
- 4 Tapered spacer cones (2 sizes)
- Angle Finder
- 2 Eye Connectors for stringing
- Durable plastic carrying case w/handle

- #95347 Bullet Trajectory Kit (Blue)
- #95346 Bullet Trajectory Kit (Green)
- #95237 Bullet Trajectory Kit (Red)
- #95350 Blue Laser Pointer
- #95348 Red Laser Pointer
- #95349 Green Laser Pointer

Disposable Tweezers and Knives

Our disposable plastic tweezers help keep you and the evidence apart. The tweezers feature a handy locking mechanism. Our disposable knives are made from surgical-quality stainless steel and come in a sterile package to avoid contamination.

- #05021 Non-Sterile Disposable Tweezers, 12 pk.
- #95028 Sterile Disposable Tweezers, 12 pk.
- #05138 Disposable Knife

Stainless-Steel Evidence Tweezers

These 5" Stainless-Steel Tweezers have a special locking mechanism that is useful in both transport and examination. Works great for handling bloody evidence or documents treated with DFO or Ninhydrin.

- #05020 Stainless-Steel Tweezers

Curve Point Tweezers

Our curve point tweezers make a useful edition to any evidence collection kit. They are perfect for handling crucial evidence, as well as documents that are being processed for latent prints.

- #95374 Curve Point Tweezers

Straight Point Tweezers

Our straight point tweezers make a useful edition to any evidence collection kit. They are perfect for handling crucial evidence, as well as documents that are being processed for latent prints.

- #95375 Straight Point Tweezers

Sterile Cuticle Stick

The Sterile Cuticle Stick is perfect for collecting evidence from under the fingernails without cross contamination. Comes in packages of 12.

- #08414 Sterile Cuticle Stick

Disposable Grunge Scoop

Do we have to spell out the things that you can scoop up with these? Let's put it this way...anything that you don't want to touch. Made from sturdy cardboard with little fold lines for instant assembly. Includes a perforated pick up scoop as well. 24 in a pack.

- #95456 Grunge Scoops, 24 pk

Sterile Nail Clippers

These heavy-duty, sterile nail clippers feature a soft-touch grip for maximum comfort when clipping nails as well as its own “catch” system. The catch system is simply a plastic housing constructed around the base of the clippers. You’ll be able to clip and contain the evidence in just one press.

#95179 Sterile Nail Clippers

Retractable Knife/Scalpel

A sterile, single use scalpel featuring a stainless steel, top-activated retractable blade in a plastic sheath. It has a non-slip ribbed handle and a millimeter reference guide on the side.

#95221 Retractable Knife/Scalpel

Metal Body Tags

What do you do when you have a dead body and no writing instrument? You can use a broken toothpick if you have to with our Metal Body Tags! These lightweight metal tags allow you to document information that can’t bleed or erase off.

#95047 Metal Body Tags, 25 pk.

Black Pocket Comb

Ideal Black Pocket Comb used for a variety of purposes.

#20431 Black Pocket Comb

Pipettes

Great for transferring liquids for testing. With graduated markings. 500 per pack

#02891 1mL with Grad. 500 pk

Evidence Probe/Chipper

Our evidence probe/chipper is a edition to any crime scene collection kit. It is perfect for probing and scraping small confined spaces.

#95372 Evidence Probe/Chipper

At The Scene

Crime Scene Tent

Don't let rainy days get you down. This 10' x 10' navy blue tent provides optimal protection at your crime scene for all types of weather. It is durable and easy to set up. Includes four side walls with two center zippers. There is even an optional rain gutter which can be assembled between two tents. The Crime Scene Shield has a lightweight rugged design that will ensure that you will have plenty of room to examine the body and the crime scene and keep the curious away.

- #06980 Navy Blue Crime Scene Tent 10' x 10'
- #06981 Rain Gutter
- #06001 Crime Scene Privacy Screen 4' x 10'
- #95165 Crime Scene Body Shield

Body Bags and Recovery Sheets

Our popular morgue sheets are packaged in individual heat sealed bags. The bags should remain sealed until ready to use to avoid possible evidence contamination. These chlorine-free body bags are made with custom manufactured materials that eliminates the environmental problems associated with traditional vinyl materials used in cadaver pouch construction. The material complies with EPA burn restrictions involving the release of chlorine gas and flexible down to -70° F. These adult-size bags measure 36" x 96" and have an envelope zipper. The recovery sheets are packaged in individual heat sealed bags. Sheets measure 72" x 108"

- #05071 Body Bags, Black
- #05065 Body Bags, White
- #05920 Recovery Sheets 25/cs

Remote Area Lighting System

The Remote Area Lighting System is the most innovative system to date. This lighting system is great for lighting up ravines, confined spaces, riverbanks and anyplace where generator lights cannot go. When it is deployed it extends to 7 feet high and with a 120 degree beam spread and up to 2400 lumens your entire scene will have the light it needs to make it a safe crime scene.

- #20129 Remote Area Lighting System

Crime Scene Disposable Poncho

Protect yourself from the elements with our one-size-fits-all disposable poncho. This lightweight polyethylene jacket features an adjustable hood drawstring. Reusable and recyclable.

- #85020 Crime Scene Disposable Poncho

Flexible Barrier Tape

You've probably seen our tape on the news, crime scene shows, and even magazines. It's the bright yellow, 3"-wide, heavy-duty polyethylene tape with bold, black imprints. Ideal for maintaining control over a crime scene. Simply tie one end around a stationary item and then walk around the scene perimeter. The tape automatically feeds from its crush-resistant dispenser. 3 mil rolls measure 3" x 1000'. Now available in English/Spanish versions.

- #56273 "Crime Scene"
- #56172 "Police Line"
- #56171 "Sheriff's Line"
- #56279 "Biohazard" (not shown)
- #70000 Custom Barrier Tape,
min. 63 rolls
- #56173 "Crime Scene" English/Spanish
- #56174 "Police Line" English/Spanish
- #06518 Adhesive Crime Scene Tape

Reflective Barrier Tape

Our non-adhesive, polyethylene reflective barrier tape allows for easy viewing during nighttime hours. Features a reflective "Police Line Do Not Cross," imprint. Comes on a 3" x 1,000' roll.

#56274 Reflective Barrier Tape

Crime Scene Walkway Tape

This adhesive tape is designed to show non-essential crime scene people where they can and cannot walk to eliminate contamination of the crime scene area. Black, bold lettering on bright yellow background, this tape comes on a 1½" x 400 ft roll.

#70005 Crime Scene Walkway Tape

At The Scene

Crime Scene Cones

Our inexpensive regular crime cones have many uses, such as blocking traffic and aiding crime-scene photographs. Each bright-orange plastic cone is 9" tall and comes nested in a stack of eight. Our 2" disc cones are perfect for placing on those not-so-straight areas such as hillsides. They also have the added benefit of not being toppled over by the wind as they are flat in design.

- #05406 Regular Cones 1-8
- #05405 Regular Cones 9-16
- #05404 2" Disc Cones 1-25
- #05407 2" Disc Cones 26-50

Counterfeit-Detection Pens

Helps identify bills that may be counterfeit. If the bills are authentic U.S. currency, the mark will turn pale yellow. But if the bills are counterfeit, the mark will turn a dark-brown color. Note: This is a presumptive test.

- #05174 Counterfeit-Detection Pen

Templates

These durable, plastic templates consist of a variety of die-cut shapes which will definitely save you time (and maybe a little embarrassment) in sketching out almost any crime scene you may encounter. You'll turn those sketches into masterpieces in no time with our template selection!

- #05498 Crime-Scene Template
- #09726 Double Traffic 2 pc. Template Set
- #09730 Pocket Traffic 2 pc. Template Set
- #09732 Deluxe Pocket 4 pc. Traffic Set
- #09734 Human Figure Template

CSI Magnetic Board

Creating professional crime scene sketches with The Board™. Use 1/4" scaled magnetic symbols placed on a layout grid to generate professional, detailed, accurate drawings in minutes. Choose from over 650 professionally drawn, die-cut magnetic symbols including: furniture, kitchen components, weapons, people/victims, vehicles, arrows and pre-labeled text blocks to place on the magnetic board.

- #95229 CSI Magnetic Board

Barrier Stix

A crime scene without barriers can quickly turn into a subway during rush hour. These Barrier Stix provide you with a temporary "pole" to attach your barrier tape. Simply step down on the foot stand and push the 9" probe into the soil. The overall height is 4' tall and it comes with barrier tape supports for placing the tape at any height you desire.

#06257 Barrier Stix, 5 pk.

Barrier Tape Caddy

The most convenient way to dispense our Flexible Barrier Tape. Simply tie the end of the tape to a stationary object and use the comfort-grip handle to start pulling. Once you have your desired length, pull down over the serrated edges for a fast and easy cut of the tape. Features a hook for securing the loose end once finished.

#95149 Yellow Barrier Tape Caddy

Crime Scene Table

A convenient way to set up your "desk" at the scene. This innovative new product is easily set up by one person. Comes complete with table frame, magnetic table top, magnetic cup holder, magnetic flashlight holder and a transport bag that holds it all!

#95217 Crime Scene Table

Stand-Alone Evidence Refrigerator

This stand-alone fridge measures 44" x 18¾" x 24" and comes fully assembled and ready for use. Features include:

- Stainless steel interior
- Controlled temperature of 38°F to 42°F
- Circulation fans
- Power-on digital temperature display
- Keyless locking system which prevents re-access
- Audible alarm and much more

Allow 6 to 8 weeks for lead time.

#95094 Stand-Alone Evidence Refrigerator

CrewCom®

Crazy thought. Or is it?

Manufactured by an established company that has been selling these to Division 1 football coaches for years. Stick with us for just a few more lines of copy.

In most situations as a crime scene investigator, you need to communicate with other fellow officers. The situation is often tense (like football) and there is often a lot of extraneous noise (like football) and often, multiple people need to be talking at the same time. Plus you need a communication system that is tough enough to handle everything from a crime scene to a football game.

With CrewCom, you have hands free communication, but yet sounds like you're talking on a telephone. No more walkie talkies and no more leaked information due to the encrypted channels.

With ideal conditions, it has a range of approximately 1000 feet. It offers the latest advances in semiconductor and battery technology for a light weight, comfortable and easy to use system.

Being tested by crime scene units nationwide with outstanding feedback. Try a free demo today!

Impression Evidence & Vacuums

Impression Evidence & Vacuums

AccuTrans®

AccuTrans® has been specially developed for forensic applications. No mixing means it is fast and easy to use. Ideal for rough, curved, horizontal or vertical surfaces. So flexible and accurate it can even be used on human skin! Non-toxic with a setting time of only four minutes at 68° F.

- #40078 AccuTrans Intro Kit, Brown
- #40059 AccuTrans Intro Kit, White
- #40055 AccuTrans Intro Kit, Transparent
- #40074 AccuTrans Starter Kit
- #40052 White Casting Silicone, 4 pk.
- #40077 White Casting Silicone, single
- #40093 Black Casting Silicone, 4 pk.
- #40094 Black Casting Silicone, single
- #40053 Brown Casting Silicone, 4 pk.
- #40076 Brown Casting Silicone, single
- #40054 Transparent Casting Silicone, 4 pk.
- #40075 Transparent Casting Silicone, single
- #40056 Spreader Tips, 40 pk.
- #40057 Mixing Tips, 40 pk.

The AccuTrans Intro Kit contains: dispenser gun, 6 spatulas, 40 mixing tips and two 75 ml. cartridges.

The AccuTrans Starter Kit contains: dispenser gun, 10 spatulas, 40 mixing tips, 6 spreader tips, 1 each of white, brown, and transparent casting silicone and a nylon case.

Rubber Mixing Bowls

These rubber Mixing Bowls are ideal for mixing caststone, silicon and other casting materials. The Mixing Bowls are available in convenient five sizes.

- #95407 Small Mixing Bowl 5 oz.
- #95408 Medium Mixing Bowl 12 oz.
- #95409 Large Mixing Bowl 20 oz.
- #95410 Extra Large Mixing Bowl 28 oz.
- #95411 Jumbo Mixing Bowl 56 oz.
- #95412 7.5" Spatula

Extruder Gun Kit

This kit is ideal for taking castings of tool marks, bite marks or any item with minute detail. It dispenses easily through a single disposable mixing tube. The kit includes one 50 ml cartridge, 24 mixing tips, five mixing sticks, gun and case. Casting dries to a flexible mold. The conversion kit allows the cartridge to be used with a standard caulking gun.

- #05936 Extruder Gun Kit
- #59365 50 ml. Cartridges, Lower Viscosity
- #59364 50 ml. Cartridges, Medium Viscosity
- #59366 Mixing Tips, 12 pk.
- #59391 Extruder Gun Conversion Kit

Impression Evidence & Vacuums

Copy Cast™ Casting Powder

Made of stone-type III casting material, Copy Cast™ Casting Powder is ideal for impressions of footprints or tire tracks. Simply add water, mix, and pour. Does not require any reinforcement material and, in most cases, a casting form is not necessary. One pouch covers an area of approximately 12" x 12". Call for quantity discounts.

Our Copy Cast Casting Kit contains: 5-one gallon plastic resealable bags containing 2 lbs. of casting material, one measuring cup.

- #09707 Copy Cast Casting Kit
- #06822 Casting Powder, 2 lb. pouch
- #05730 Casting Powder, 6¼ lb. pouch
- #05723 Casting Powder, 25 lb. pouch

Casting Frames

These adjustable aluminum frames form a barrier around shoeprints or tire tracks to contain the flow of casting material. Our 7" wide frame adjusts from 10" to 18" long and our 12" wide frame adjusts from 15" to 28" long.

- #05749 7" Casting Frame
- #05751 12" Casting Frame

Sili-Cast™ Casting Material

For those smaller, more detailed casts, we recommend Sili-Cast™ Casting Material. Simply add the required amount of catalyst, then mix and pour for a silicone-based mold.

- #05711 Sili-Cast, 16 oz. jar

Bio-Foam

Bio-Foam gives you accurate three-dimensional impressions in seconds! This all-inclusive system allows you to make, store, and protect the impression.

- #95018 Bio-Foam Impression
- #95019 Bio-Foam Impression, 2 sided

Impression Evidence & Vacuums

Mikrosil™ Toolmark Putty

Mikrosil™ is perfect for preserving toolmarks as evidence. Easy to use, simply mix the putty from one tube with the catalyst from the other and press against the mark you want to preserve. Instructions are included.

- #05985 Brown Mikrosil, 7 oz. kit
- #59852 White Mikrosil, 7 oz. kit
- #59851 Black Mikrosil, 7 oz. kit
- #59853 Gray Mikrosil, 7 oz. kit

Contents of kit:

- 1 - PathFinder Device brush
- 2 - Sheets Lift Film
- 1 - Carrying case
- 1 - Earth plate and instructions

PathFinder™ Electrostatic Dust Lifter

This device is an ergonomically-designed wireless unit that lifts dust prints off floors, doors, carpet, paper products, tables, counters, metal, some fabric, and even human skin (does not work on plastic) in just a few simple steps. First, place film over the dust print. Next, place the earth plate about an 1/8" next to the film. Turn the PathFinder so that the two metal probes on the back are resting on the earth plate and the single probe is resting on the film. Then, turn on device and the film will suction down over the print. Brush over film to get rid of any air bubbles. Lastly, lift and there's your dust print!

- #09795 PathFinder Kit
- #09715 Footwear Impression Storage Boxes, 25 pk.
- #09711 Metalized Lift Film, 25 pk, 15" x 12"
- #09714 Metalized Lift Film Roll, 12" x 65'

Snowprint Wax™

Our Snowprint Wax™ is a must-have for working in the snow. Insulates the snow to prevent loss of detail for footwear impressions or tire tracks. Simply spray a few layers in the impression allowing each layer to dry before adding another. Gently pour the casting material onto the Snowprint Wax and allow to harden. Once hardened, remove the impression from the snow. The red color of the spray wax produces superior photographs.

- #05984 Snowprint Wax, 250 ml can

No International
Shipping

Stati-Lift™ Dust-Print Lifter

This unique evidence-collection device lets you lift and protect dust or dirt footprints from almost any surface. The Stati-Lift Dust-Print Lifter uses the principle of static electricity to transfer the dust or dirt prints from the original surface to the surface of its membrane. The dark-colored membrane makes for easy photography.

- #05170 Stati-Lift Dust-Print Lifter, 10 pk.

Impression Evidence & Vacuums

Trace-Evidence Collection System

The Trace-Evidence Collection System is designed for high efficiency collection of particle evidence. The filter unit is packaged in a supplied evidence bag and then heat-sealed into a second poly bag. After use, the filter is removed from the vacuum hose, capped on the ends, and placed within the supplied evidence bag. The filter and filter housing are intended for one time use only to ensure evidence integrity. They should never be cleaned or reused.

- #06702 Trace-Evidence Vacuum
- #06703 Trace-Evidence Filter
- #09782 Internal Filter

Pre-Packaged Kits

Pre-Packaged Kits

QuickCheck™ Cocaine Swabs

Presumptively identify the hydrochloride and base forms of cocaine powder residue with QuickCheck Cocaine Swabs.

It's as easy as 1-2-3!

Step 1: Swab the suspected surface with the plain (unstriped) end of the swab.

Step 2: Hold the swab with the striped end up and bend at the blue stripe until the swab "snaps." Allow the reagents to flow down and absorb into the opposite side of the swab tip.

Step 3: For a positive presumptive cocaine test result, the cotton tip will appear BLUE in color.

Results in a SNAP! Box of 50.

#10136

Cocaine Swabs

Hazardous Goods

GSA Pricing

QuickCheck™ Blood Stain Green

Neat little kits, neat price too! Simply take the supplied swab and collect a small sample of what you suspect may be blood. Break both ampoules in the applicator tube (using the protective QuickCheck sleeve), tap to mix, then squeeze a drop or two on the swab tip. If the sample is blood, it'll turn a bluish-green color within seconds. Disposal bag included.

#10131

Bloodstain Green (10 kits)

CD-ROM Certification Training!!!

Old narc, or new narc, definitely a must-see! Walks you through all the steps, plus has actual footage of various controlled substances in varying purity levels to show possible color changes that you'll probably experience in the field!

#00077 CD-ROM Certification Training

Pre-Packaged Kits

Warning! - Do not expose for prolonged periods to sunlight or heat. Ampoules should be broken through the protective plastic casing. Do not continue to crush the glass after breaking as this may puncture the pouch.

QuickCheck™ Narcotics Identification Kits

Collect a small sample of the suspected drug, place it in a pouch or tube, break the glass ampoules in sequence, and the chemicals mix to form a specific color. QuickCheck stands out with its packaging and design; safety to the user; ease of use; technically advanced formulas; and pricing.

QuickCheck™ Pouches (10 per box)

- #10124 Cocaine
- #10122 Meth/Ecstasy
- #10120 Marijuana DL
- #10125 Heroin
- #10123 Marquis
- #10121 Marijuana KN

- #10129 Heroin
- #10128 Marquis
- #10126 Marijuana KN

Pre-Packaged Kits

DNA Kit

This kit has everything you need to properly collect and transport a blood specimen for subsequent DNA testing.

Contents of kit:

- 2 –10-ml EDTA tubes
- 2 –Blood-transport tube holders
- 1 –Leak-proof specimen-transport bag and absorbent material
- 2 –Security seals
- 1 –Iodine prep pad
- 1 –Safety-Lock needle with holder
- 1 –Mailing box

#06032 DNA Kit

Body-Fluid Collection Kit

This kit is fluid enough to adapt to evidence collection at a variety of crime scenes. Allows you to collect and preserve liquid and dried body fluids. We've assembled everything you'll need to get the job done!

Contents of kit:

- 1 –Disposable knife
- 1 –Disposable tweezer
- 8 –Swabs
- 4 –Swab boxes
- 4 –Glassine envelopes
- 1 –1-oz. bottle with lid
- 2 –Pipettes
- 4 –Trace evidence wraps with envelopes
- 1 –Security seal
- 1 –Distilled water
- 2 –5 ml transport tubes
- 1 –#12 Kraft bag

#05783 Body Fluid Kit

Blood-Alcohol Kit

A little more economical and easier to handle than our standard blood alcohol kit. Handles the same duties as above, but features our Ezee Blood Transport Tray.

#06034 Blood-Alcohol Kit w/Ezee Tray

Pre-Packaged Kits

Blood-Alcohol Kit

This kit offers you ideal protection in the handling of blood specimens. The kit is packaged in a durable plastic container with foam inserts for the two blood tubes (20-mg potassium oxalate 100-mg sodium fluoride) and one needle and holder. The blood tubes are encased in a second tube for extra protection.

#05786 Blood-Alcohol Kit

Contents of kit:

- 2–blood tubes (20 mg. pot. oxalate 100 mg. fluoride) each in a second protective tube
- 1–Needle and holder
- 1–Consent forms
- 1–Blood-collection report
- 4–blood-type labels for chain of custody
- 1–Providone-Iodine prep pad
- 4–color-coded security seals
- 1–Absorbent Sheet
- 1–6" x 9" Strip-N-Grip Bag
- 1–Mailing carton
- Instructions

Hazardous Goods

RIFF Shooter ID Kit

The Rapid Identification Friend or Foe (RIFF) kit is a militarized version of ISID, intended primarily for use in military operations in urban terrain (MOUT) to help separate insurgents from non-combatants. The small compact RIFF kit is used for conducting the field test alone. In a matter of minutes one can presumptively identify the presence of gun shot residue.

#05612 RIFF Shooter ID Kit (10 kits)

Gunshot-residue Kit (SEM)

Used to collect and analyze gunshot residue from the clothing or skin of a suspected shooter using Scanning Electron Microscope Analysis (SEM). This kit consists of adhesive metal disks. Simply rub the disks on the hands of the suspect and the adhesive picks up gunshot residue. Note: Use at the earliest possible time after shooting.

Contents of kit:

- 2 or 4 –Carbon Disks
- 1 pr. –Plastic Disposable Gloves
- 1 –Suspect Information Envelope
- 3 –Security Seals
- 1 –Instruction Sheet

#05981 Gunshot-Residue Kit, SEM, 2 disk

#05982 Gunshot-Residue Kit, SEM, 4 disk

Gunshot-Residue Kit (AA)

This kit collects trace amounts of gunshot residue that are left on one's hand after firing a gun and is analyzed using Atomic Absorption Analysis. Residue is collected using cotton swabs absorbed with 0.05% nitric acid. Similar to our SEM Gunshot-Residue Kit, this must be used at the earliest possible time after shooting.

Contents of kit:

- 1 –Security Seal
- 1 pr. –Disposable Gloves
- 6 –Sterile Swabs
- 1 –Nitric Acid Moistening Agent
- 6 –Vials
- 1 –Transport Box

Hazardous Goods

First Aid Kit

This uniquely packaged, economically priced, and easy to use first aid kit features greater variety and more product than most other first aid kits on the market. Meets and exceeds ANSI standard.

Contents of kit:

- 3 –Hand Cleansing Wipes
- 2 –Neosporin Antibiotic Ointment
- 1 –Instant Burn Cooling Patch
- 10 –Gauze Pads
- 10 –Water Block Band-Aids
- 10 –Sport Strip Band-Aids
- 10 –Tough Strip Band-Aids
- 80 –Sheer Strip Band-Aids (various sizes)
- 4 –Butterfly Closures
- 1 –Cold Pack
- 1 –First Aid Guide
- 2 –Imodium A-D caplets
- 2 –Tylenol Extra Strength Pain Reliever caplets

#06655 First Aid Kit

Hazardous Goods

Hemident Test for Blood Stains

This test was developed for investigators and criminalist as an aid for the presumptive identification of bloodstains. It is a non-destructive test that allows you to retain evidence intact for further lab analysis. Each test is self-contained and compact, no larger than a cigarette. Note: Hemident does not distinguish between human and/or animal blood. Please Note that this does carry an expiration date.

#59181

Hemident, 10/bx.

Hemastix

This test is most commonly used at crime scenes to determine if what is being photographed at the scene is actually blood spatter. It is a quick and easy test which detects the peroxide-like activity of hemoglobin in a substance.

#02135

Hemastix, 50 strips/pk.

Blood-Collection Tubes

Available in two configurations: Gray-Topped and Purple-Topped. The 10-ml Gray-Topped Blood Tube contains 20 mg of potassium oxalate and 100 mg of sodium fluoride. This is the desired blood tube used in blood-alcohol content kits. The 10-ml EDTA Purple-Topped Blood Tube is the desired tube used in most blood testing, including DNA testing. Note: These tubes do have expiration dates.

- #02093 Gray-Topped Blood Tube, 100 pk.
- #01263 Purple-Topped Blood Tube, 100 pk.
- #02091 Red Top Sterile Tube, 100 pk.

Hazardous Goods

Absorbent Sheets

Let's face it, containers and tubes sometimes fail. Avoid a big mess with these absorbent sheets. Especially good for transporting blood and urine specimens. Each sheet will absorb about 60 ml. of fluid.

- #05535 3" x 6", 100 pk.

Hazardous Goods

Hexagon OBTI

Hexagon OBTI is simple to use with results in less than three minutes. Human hemoglobin (hHb) reacts with the conjugate composed of blue particles and monoclonal anti-human hemoglobin antibodies. This screening test rapidly verifies if a bloodstain is human blood. Hexagon OBTI contains a two-part test: a collection tube for the blood sample and a test bar. Comes 24 tests per box.

Directions

A sample of the presumed human blood trace is transferred into the tube with transport medium. With the lid screwed back on, shake the sample gently inside the transport medium. This mixture is added, drop by drop, to the test in the sample well (S) at the lower end of the test. A positive sample is typically detected within 2-3 minutes. Negative results should be confirmed after 10 minutes.

- #15097 Hexagon OBTI

Pre-Packaged Kits

Body Print and Evidence Kit

Body Print and Evidence Kit is designed to facilitate the processing of dead bodies for trace and fingerprint evidence. This kit provides all the items necessary to experiment and do it yourself. Kit comes with instructions, powder, brush, fans, temperature monitors and various lifting mediums and many other items.

Contents of kit:

- 1 –Black Evidence Marker
- 1 pr. –Cotton Gloves
- 1 –Fan
- 1 –2 oz. Black Powder
- 1 –1 oz. Black Magnetic Powder
- 1 –Fiber Duster
- 1 –Bubble-Base Magnetic Applicator
- 1 –1 1/2" Clear Lifting Tape
- 40 –White Backing Cards
- 1 pk. –5" x 7" Trace Evidence Lifters
- 2 –5" x 7" White Gel Lifters
- 2 –3" x 5" Laminated Glass Slab
- 2 –Hand Warmers
- 10 –Evidence Strips
- 12 –Temperature Monitor Strips
- 4 –9" x 12" Zipr-Top Bags
- 2 –Foam Blocks
- 1 –Instruction Sheet
- 1 –Box w/ Custom Foam Insert

#01910

Body Print and Evidence Kit

Sterile Cotton Swabs

These cotton swabs will pick up traces of any liquid evidence, such as blood and other body fluids. You can also use for dried blood. Simply place one drop of distilled water on tip and swab the dried blood to dissolve it. Then, transfer the blood to the swab. Ensure swab is dry before packaging. Packaged two per envelope, 100 envelopes per box.

#02037
#60363

Sterile Cotton Swabs, 6"
Sterile Cotton Swabs, 3"

Pre-Packaged Kits

IntegriSwab™

The IntegriSwab™ is a sterile swab that is enclosed within a UV-protected, polypropylene capsule. Simply open the cap, push the swab tip out, swab the area of interest and retract the sample and the cap. With its built-in ventilation, there's no air-drying and no cross-contamination!

Contents of kit (08400):

- 20 – IntegriSwabs
- 20 – Swab boxes
- 40 – Integrity seals

| | |
|--------|----------------------|

| #08420 | IntegriSwab, 25 pk. |

*Packaged in 12 packs of 4 swabs
**Not individually packaged

Swab Boxes

This is the perfect breathable container for cotton swabs that have been used to collect body fluids. There are absolutely no biodegradable components in this container to jeopardize the evidence. Ideal for holding swabs in sexual assault cases.

#01313 Swab Boxes, 50 pk.

Sterile Water (15022)

3m tubes of Sterile Water come in counts of 100 tubes per box.

| | |
|--------|---------------------|
| #15022 | 3 mil Sterile Water |
| #15077 | 5 mil Sterile Water |

Pre-Packaged Kits

Entomology Kit

The science of entomology is forging ahead as an accurate way of determining time and place of death. Entomology expert, Dr. Neal Haskell, has collaborated with the Lynn Peavey Company to put together an easy-to-use kit for collecting specimens. Conveniently packaged, allowing you to send to any board certified entomologist throughout the country...we even provide the addresses!

Contents of kit:

- 8 –Vials (four for adult specimens, four for maggots)
- 3 –Containers for live specimens
- 1 –Tweezers
- 1 –Pencil
- 3 –Pairs of latex gloves
- 2 –Solutions for specimens Identity labels
- 1 –Instruction sheet

#95045 Specimen Net
#95054 Plastic Trowel

Alco Screen Test

The relationship of the amount of saliva alcohol to blood alcohol is 1:1, while with breath it is .00048 to 1. Clearly, saliva testing is the way to go! In addition to greater accuracy, you can get fast results—usually within two minutes. The Alco Screen Test is also versatile. It will detect alcohol levels through serum, urine, soft drinks, and other fluids. So convenient that it can be used at any time at any place.

#04916 Alco Screen Test, 24 box

- #10054 Identidrug™ Wall Chart (1)

NIK® Porta-Pac®

The perfect pack when portability and ease-of-use are a must. This notebook-sized kit will slip right into any briefcase. Twenty tests presumptively identifies 25 different controlled substances.

Contents of kit:

- 2 ea. –Test A, B, C, D, E, G, J, K, L, and U
- 1 –Acid neutralizer (test F)
- 1 –Polytesting instruction manual
- 1 –Polytesting report pad
- 1 –Identidrug® desk chart.

Hazardous Goods

- #10012 Porta-Pac®

Pre-Packaged Kits

NIK® 50-Pac® and NIK® 60-Pac®

Presumptively identify LSD, marijuana, demerol, barbiturates, amphetamines, and opium alkaloids with this two-level screening kit. Contains 50 individual presumptive tests.

The NIK 60-Pac identifies the same drugs as the 50-Pac® and still allows for two levels of screening for many substances, but the 60-Pac has the added bonus of the highly selective Test G for the identification of cocaine. Contains 60 individual presumptive tests.

Contents of kit:

- 10 ea.–Tests A, B, C, D, and E
- 1 –Acid neutralizer (test F)
- 1 –Polytesting instruction manual
- 1 –10-point field testing tape
- 1 –Polystyrene carrying case

Don't See What You Need?

We are here to meet your needs. Any of the standard pre-packaged urine kits, blood kits and sexual assault kits can be customized to your specific requirements. Call us for more details on this feature!

NOW BULLET-PROOF!

When you seal a package with evidence tape...you want the peace of mind that your chain of custody is intact and that any signs of entry will be detected.

The New Zipr-Weld will do just that. And the film and adhesive layer have been completely re-engineered to stop a speeding bullet* and permanently stick to virtually any surface...without fail.

Recent overall trends in manufacturing processes worldwide show small levels of waxes, oils and silicones appearing in many raw materials.

That is why we have re-formulated our tape...to ensure it's absolutely bullet-proof.

Still the world's leader in free customization and color-coding. And still in easy to use dispenser boxes, Split Back Dispensers or individual strips.

Practical Homicide Investigation: Checklist and Field Guide

Vernon J Geberth, Practical Homicide Investigation Inc., New York

This practical "how-to" guide contains many of the checklists from Practical Homicide Investigation, Third Edition that lead you step-by-step through procedures, tactics, and forensic techniques used in sudden death and violent death investigations. Using these checklists will ensure that a proper and complete investigation is undertaken at the death scene.

#09504 Practical Homicide Investigation Checklist

Evidence and Recovered Property

By Robert Doran

This is the most comprehensive book available on police evidence management. It contains hundreds of ideas, sample letters, reports forms, charts, and diagrams to assist the property control officer and the police administrator. Over 300 pages of "how to" information.

#90010 Evidence and Recovered Property

Evidence and Property Management

Joseph T. Latta, M.P.A., IAPE Executive Director and Lead Instructor
George E. Rush, Ph.D., California State University, Long Beach, CA

Evidence and Property Management is unique in that it is a model for all aspects of the management of evidence. With its simplified, hands-on approach, you'll learn about proper facility design and layout, construction, security measures, and most importantly, control measures and techniques.

#09502 Evidence and Property Management

Forensic Pathology

Dominick J DiMaio Consultant, Brooklyn, New York
Vincent J. M. DiMaio San Antonio Regional Crime Lab, San Antonio, Texas

Medicolegal investigation of death is the most crucial and significant function of the medical examiner within the criminal justice system. The medical examiner is primarily concerned with violent, sudden, unexpected, and suspicious deaths and is responsible for determining the cause and manner of death, identifying the deceased, determining the approximate time of death and injury, collecting evidence from the body, issuing the death certificate, and documenting these events through an official autopsy report.

#09528 Forensic Pathology

Safety for the Forensic Identification Specialist

By Nancy E. Masters

A full-blown safety textbook for those technicians who deal with fingerprint evidence and crime scene hazards on a day-to-day basis. Chapters include such topics as material safety data sheets, routes of exposure, personal protection, mixing and spraying chemicals, labeling containers, spill control and waste disposal, and forensic light sources. Also features an incompatible chemicals table, laboratory self-inspection checklist, and much more.

#90025 Safety for the Forensic Identification Specialist

Forensic Science Laboratory Experiment Manual and Workbook

Thomas Kubic, John Jay College
Nicholas Petraco, John Jay College

Most of the exercises can be conducted with materials that are either readily available in chemistry and biology departments or can be purchased without significant expenditure. The experiments cover all the typical trace evidence tests including body fluid, soil, glass, fiber, ink, and hair. The book also includes experiments for impression evidence, such as fingerprints, shoes, and firearms, as well as the use of photography and basic microscopy.

#90021 Forensic Science Laboratory Experiment Manual and Workbook

Dead Reckoning: The Art of Forensic Detection

Jon J Nordby Final Analysis, Tacoma, Washington

Dead Reckoning: The Art of Forensic Detection examines the applications of logic and science to decipher chaotic death scenes and difficult cases, and to derive orderly explanations from their jumbled clues. The 10 case studies in this book illustrate the powers of observation exercised in reading the signs, identifying them as clues, and reasoning from them to the best explanation.

#90006 Dead Reckoning

Forensic Science Glossary

John C Brenner New York Police Department, Albany, New York

Forensic Science Glossary is a single source reference that contains the spelling and definitions of commonly used terms found in forensic environments. This glossary of words and their meanings covers important areas of forensic science, including the relevant toxicology, documents, drug chemistry, criminalistics, ballistics, and DNA analysis.

#90003 Forensic Science Glossary

Books, Software & Videos

Police Photography

Larry S. Miller

This book contains information that is required reading for Level 1 Crime Scene Technician Certification Programs. Designed to teach the fundamentals of photography and their applications to police work, offering simple and clear explanations of the basic elements of photography that are used in investigative police work.

#90030 Police Photography

The Practical Methodology of Forensic Photography

David R. Redsicker, Peter Vallas Associates Incorporated, New York

This bestseller combines directions for the old tried and true methods of photographic documentation (cameras, films, lighting sources) with analyses of the latest methods used in the practice (video, thermography, digital imaging). Redsicker presents this information in a practical, step-by-step fashion that is bound to enable students and professionals alike to use any camera to produce their own documentations of forensic evidence.

#09534 The Practical Methodology of Forensic Photography

Techniques of Crime Scene Investigation

Barry A. J. Fisher, Los Angeles County Sheriff's Department

Written in an easy-to-read style, this comprehensive text offers up-to-date technical expertise that the author has developed over many years in law enforcement. Includes check-off lists, case studies, and 16 pages of full-color illustrated photos. Also included is an appendix on equipment for crime scene investigations.

#09522 Techniques of Crime Scene Investigation

Principles of Bloodstain Pattern Analysis: Theory and Practice

Stuart James James and Associates, Fort Lauderdale, FL
Paul Erwin Kish Forensic Consultant & Associates, Corning, NY
T. Paulett Sutton University of Tennessee, Memphis, TN

Bloodstain evidence is becoming a key piece of the puzzle in the outcome of some of the world's most notorious criminal cases. Uses scene and laboratory examinations in conjunction with forensic serology and pathology as well as chemical enhancement techniques.

#90029 Principles of Bloodstain Pattern Analysis: Theory & Practice

Contrast: An Investigator's Basic Reference Guide to Fingerprint Identification Concepts

Craig A. Coppock

Illustrates the basic concepts involved in the science of fingerprints and fingerprint identification. The book is designed to be read in its entirety or to be referenced as a guidebook. Contrast is intended for new and experienced crime scene investigators, patrol officers, attorneys, and criminal justice students who seek to add fingerprint identification to their investigative skills.

#90016 Contrast: Hardback
#90015 Contrast: Paperback

Scott's Fingerprint Mechanics

By Robert D. Olsen, Sr.

A comprehensive book on the basics of latent print development techniques that include chapters on identifying and taking fingerprints; latent fingerprint crime scene procedures; fingerprint equipment; powder, physical, chemical, and lifting techniques; and fingerprint cases. The bibliography references articles that are a rare find.

#90026 Scott's Fingerprint Mechanics

Advances in Fingerprint Technology

R. E Gaensslen University of Illinois, Chicago, Illinois
Henry C Lee CT State Police Forensic Science Lab, Meriden, Connecticut

This bestseller covers major developments in latent fingerprint processing, including physical, chemical, instrumental, and combination techniques. Written by a renowned group of leading forensic identification and criminalistic experts, this valuable work presents exciting progress in fingerprint technology.

#09532 Advances in Fingerprint Technology

Friction Ridge Skin: Comparison and Identification of Fingerprints

James F Cowger Martinez, California

Here is a complete guide to the collection, classification, and comparison of friction skin prints and the determination of identity and non-identity. It discusses the cause and significance of variations in prints, the importance of class characteristics in print, the application of probability in decision making, and photographic techniques and considerations.

#09524 Friction Ridge Skin

Books, Software & Videos

Quantitative-Qualitative Friction Ridge Analysis: An Introduction to Basic and Advanced Ridgeology

David Ashbaugh Ridgeology Consulting Services, British Columbia, Canada

Described as the definitive source in friction ridge identification. Examines the latest techniques and methods as well as the history of friction ridge identification. It includes the new method, Palmar Flexion Crease Identification (palm lines), which was designed by the author and has aided in solving several criminal case where the fingerprints were not available.

#90022 Quantitative-Qualitative Friction Ridge Analysis

Gunshot Wounds: Practical Aspects of Firearms, Ballistics, and Forensic Techniques

Vincent J. M. DiMaio, San Antonio Regional Crime Lab, San Antonio, Texas

Provides critical information on gunshot wounds and the weapons and ammunition used to inflict them. The book describes practical aspects of ballistics, wound ballistics, and the classification of various wounds caused by handguns, bang guns, rifles, and shotguns.

#09526 Gunshot Wounds

Current Methods in Forensic Gunshot Residue Analysis

David Exline Chemicon Inc., Pittsburgh, Pennsylvania

A. J. Schwoeble R.J. Lee Group, Inc., Monroeville, Pennsylvania

With the ever-spreading problem of violent crime in today's society, techniques to assist forensic scientists and other law enforcement personnel have come to the forefront. With improvement in collection methods and analytical tools to conduct more thorough analyses, gunshot residue examination has made a dramatic impact as an area of trace evidence that is essential in the investigation and prosecution of violent crime.

#90005 Current Methods in Forensic Gunshot Residue

Practical Investigation Techniques

Kevin B Kinnee

Practical Investigation Techniques is useful for new as well as veteran investigators to establish a practical standard for conducting a wide range of diverse criminal investigations. Written by a veteran investigator, the book teaches the proper investigative techniques for such criminal activities as extortion, blackmail, credit card fraud, check fraud, fencing operations, employee theft, sports gambling, money laundering, and shoplifting rings.

#09512 Practical Investigation Techniques

Practical Shooting Scene Investigation: The Investigation & Reconstruction of Crime Scenes Involving Gunfire

Dean H. Garrison

A basic nuts and bolts guide to the on-scene investigation of shooting cases.

#09501 Practical Shooting Scene Investigation, Paperback

Footwear Impression Evidence: Detection, Recovery and Examination

William J Bodziak Consultant, Florida

This book describes the methods used worldwide to recover and identify footwear impressions from the scene of a crime. This edition includes updated and new information on recovery procedures and materials such as lifting, photography and casting; chemical enhancement; updated information about footwear manufacturing; footwear sizing; and known impression techniques and materials.

#09520 Footwear Impression Evidence

Footwear, The Missed Evidence

By Dwane S. Hilderbrand, CFE

This handbook was written as a field guide to the collection and preservation of footwear impression evidence. Written by a recognized expert, this book covers it all.

#09515 Footwear, The Missed Evidence

Tire Imprint Evidence

Peter McDonald Consultant, Hudson, Ohio

Improve your use of tire imprint evidence with the work of an expert. McDonald discusses methods for examining, capturing, and recording imprints, outlines standard procedures for identification, shows how to prepare expert testimony, and provides detailed technical information helpful in identifying imprints.

#09529 Tire Imprint Evidence

Investigating Computer Crime

Franklin Clark, Puyallup, WA
Ken Diliberto

Presents practical methods for gathering electronic evidence and dealing with crimes involving computers. It follows a step-by-step approach to the investigation, seizure, and evaluation of computer evidence.

#09514 Investigating Computer Crime

Books, Software & Videos

Techniques of Crime Scene Investigation Interactive Training CD-Rom

Jane M. Homeyer, Creative Approaches to Teaching, Training, & Testing, Inc.
Sara Mikolajczyk, Creative Approaches to Teaching, Training, & Testing, Inc.

A hands-on CD that presents scenario-based interactions within virtual crime scenes. Features activities and exercises that provide instant feedback as well as short quizzes to instantly test comprehension.

#90024 Techniques of Crime Scene Investigation CD-Rom

Practical Aspects of Rape Investigation: A Multidisciplinary Approach

Ann Wolbert Burgess Boston College, Boston, Massachusetts
Robert R Hazelwood FBI, Manassas, Virginia

Brings into focus the five different principals involved in rape investigation: the police investigator, the examining nurse, the forensic scientist, the crisis counselor, and the prosecutor. It demonstrates how each must work together for more effective handling of all kinds of sexual assault crimes.

#09576 Practical Aspects of Rape Investigations

Crime Scene Photography

By Edward M. Robinson

Crime Scene Photography contains over 500 photographs. It covers the concepts and principles of photography as well as the "how to" of creating a final product. Includes end-of-chapter exercises and a companion website that gives variations on correct and incorrect approaches to the exercises.

#90038 Crime Scene Photography

Call 24 hours, 7 days a week (national or international)

Snail Mail:
LYNN PEAVEY COMPANY
Attn: Order Department
10749 W. 84th Terrace
Lenexa, KS 66214

Email Us:
Lpv@peaveycorp.com
 Visit us at www.lynnpeavey.com to browse our products (and hopefully buy).

Shipping freight policy:

Most stock shipments are made within 24-48 hours. Custom items normally take between 2-4 weeks.

Shipping and handling will be charged based on the following table:

| Order Between | Shipping & Handling |
|----------------|---------------------|
| 0-\$50 | \$7.50 |
| \$51-\$100 | \$14.00 |
| \$101-\$200 | \$19.50 |
| \$201-\$400 | \$28.50 |
| \$401-\$600 | \$37.50 |
| \$601-\$800 | \$46.75 |
| \$801 and over | Call for quotations |

Terms:

Open-account billing to all federal, state, county and municipal agencies. Payment terms net 30 days. With other accounts VISA, MasterCard, Discover, American Express or check (in advance) will be accepted, unless prior credit arrangements have been made.

Freight and handling charges will be pre-paid and added to the invoice F.O.B. Lenexa, Kansas.

Prices and specifications are subject to change without notice.

Rush Orders:

Your freight charges will be higher on rush orders but we will be glad to ship FedEx Overnight, FedEx 2-Day, Express Mail and so forth. All you have to do is ask.

Custom Orders:

We'll be glad to give you all the design assistance necessary to make your customer imprint look great! Call our toll-free number and ask for design assistance.

Guarantees:

Our guarantees are simple - if you don't like it, you don't pay for it. If within 30 days you decide that an item doesn't work for you, call us to arrange a pick up and you won't pay.

Hazardous Goods:

This symbol indicates products that are hazardous goods. Special packaging and handling requirements are applicable.

Oversize Freight Orders:

This symbol indicates that the product is a non-standard weight item and additional charges may apply. Prices subject to change without notice.

GSA Pricing:

This symbol indicates that a product is eligible for special GSA Pricing. GSA Contract: GS-07F-0336T.

Not International Shipping:

This symbol indicates that a product is not available to ship internationally.

Our price-matching guarantee is simple. If you find a comparable item anywhere for a lower price, we will beat it. Simply state this to your customer service representative.
