Our fingerprinting products are used to take fingerprints at a crime scene, in a business setting, or for legal purposes. We offer numerous fingerprinting options including pads, ink, fingerprinting stations, and fingerprinting kits.

INKING PADS & SHEETS

Fingerprint Pads - Porelon®

TRITECHFORENSICS' Porelon® Fingerprint Pads will take thousands of fingerprints and are always ready for use. The stored ink rises to the surface of the microreticulated thermoplastic resin pad by means of capillary action.

The nontoxic, nonfading, permanent ultra-black ink dries in seconds on all types of record cards. They are available in pocket and desktop versions and are supplied with hinged covers.

Reorder No.	Description
PAD-POR-1	Large Rectangular Pocket Model Pad - 5.25" L x 2.75" W x .5" H
PAD-POR-2	Large Rectangular Desk Model Pad with screws - 5.25" L x 2.75" W x .5" H
PAD-POR-RS	Small Rectangular Pocket Model Pad - 2.25" L x 1.75" W x .5" H
PAD-POR	Replacement Pad (not shown) - 5" L x 2.5" W

Fingerprint Pads - Semi-Inkless

TRITECHFORENSICS' Semi-Inkless Fingerprint Pads are available in five different models and will take thousands of fingerprints.

The polyethylene micron plastic pad is impregnated with a nontoxic, nonfading permanent black fingerprint ink that dries instantaneously. The pads are used around the world by governments and private industry for background checks. The ink is easily removed by wiping the fingertips with a dry tissue or using an ink remover towelette.

Reorder No.	Description
PAD-TTI-RL	Large Rectangular Pocket Model Pad - 5.25" L x 2.75" W x .5" H
PAD-TTI-RLD	Large Rectangular Desk Model Pad with screws - 5.25" L x 2.75" W x .5" H
PAD-TTI-RS	Small Rectangular Pocket Model Pad - 2.25" L x 1.75" W x .5" H
PAD-TTI-1.5	Small Round Pad - 1.5" diameter
PAD-TTI-2	Large Round Pad - 2" diameter

Fingerprint Pads - Ceramic

TRITECHFORENSICS' low-cost Ceramic Fingerprint Pads contain a fast-drying, nonsmearing, permanent ink. The ceramic pads do not deteriorate with use, and the nontoxic, law enforcement grade ink is easily removed by simply wiping the subject's fingers with a damp paper towel, using soap and water, or with an ink remover towelette.

All ceramic pads are supplied with peel-and-affix tape which allows you to affix the pad to tabletops or fingerprint stations.

Reorder No.	Description
PAD-CER-3.5	X-Large Rectangular Ceramic Pad - 4.375" L x 3.125" W x .75" H (not shown)
PAD-CER-RL	Large Rectangular Ceramic Pad - 4.125" L x 2.625" W x .625" H
PAD-CER-RS	Small Rectangular Ceramic Pad - 2.75" L x 1.375" W x .375" H
PAD-CER-2.5	Large Round Pad - 2.5" diameter
PAD-CER-1.5	Small Round Ceramic Pad - 1.375" diameter

Porelon® Palm Print Pad

Our Porelon® Palm Print Ink Pad measures 8.312" x 7" and will take thousands of palm prints. The nontoxic, nonfading, permanent, ultra-black ink rises to the surface of the microreticulated thermoplastic resin pad by means of capillary action. The nonsmearing ink dries instantaneously on palm print record cards. Our Palm Print Ink Pad also has a unique raised portion that conforms to the subject's hand and ensures the inside of the palm is inked as well. The ink is easily removed from the subject's palms using any of our hand cleaners.

TIP

Our Palm Print Record Cards are shown on page 172 and our spring loaded Palm Print Cardholder on page 173 of this catalog.

Reorder No.	Description
PAD-POR-PALM	Porelon® Palm Print Pad

Perfect Ink® Fingerprint Pads

Perfect Ink® Fingerprint Pads contain a ceramic pad which is impregnated with a fast-drying, non-smearing, permanent, black semi-inkless ink. The ceramic pad will not deteriorate with use and the nontoxic ink can be easily removed by rubbing the fingers together or wiping with a dry tissue.

- A) Large rectangular pad with removable cover - (16,000 prints per pad) - 3" x 4.5"
- B) Small rectangular pad with hinged cover - (500 prints per pad) - 1.74" x 2.25"

- D) Small round pad with hinged cover - (1,200 prints per pad) - 1.5" diameter

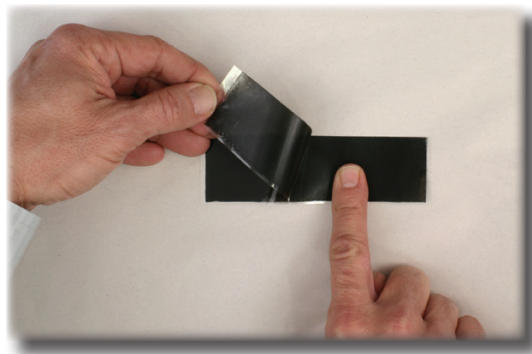

Reorder No.	Description
PAD-PI-30	(A) Large Rectangular Pad - 3" x 4.5" *
PAD-PI-5	(B) Small Rectangular Pad - 1.75" x 2.25" *
PAD-PI-20	(C) Large Round Pad - 2.5" dia. *
PAD-PI-10	(D) Small Round Pad - 1.5" dia. *

** Not Available for International Sale*

Disposable Fingerprint Inking Sheets

Our Disposable Fingerprint Inking Sheets consist of two pre-inked sheets of .010" acetate sandwiching a thin, even layer of fingerprint ink. Each sheet measures 1.5" H x 5" W.

To use the pre-inked sheets, simply peel back the top sheet of acetate to expose the ink. Resting the sheet on a smooth, flat surface, roll the subject's finger(s) on the bottom sheet and record the prints as you would using any other inking system. The black ink is quick drying and quickly absorbs into any type of record card.

FEATURES

- Easy to use - Pre-inked, no rollers, no slabs, completely disposable.
- Excellent Reproduction - Ultra-black, non-fading, quick drying, permanent fingerprint ink.
- Reusable - Simply fold the sheet together, press firmly on a flat surface, and the sheet is re-inked for additional use.

Reorder No.	Description
FINSH1.5X5	Fingerprint Sheet - 1.5" x 5", 100/pkg
FINSH3X10	Fingerprint Sheet - 3" x 10", 100/pkg
FINSH6X10	Fingerprint Sheet - 6" x 10", 100/pkg

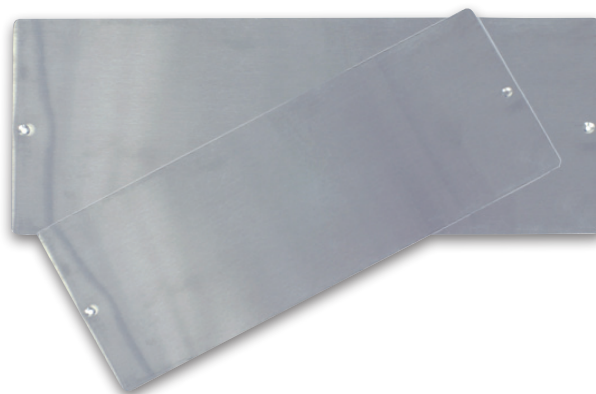

INKING SLABS, INK, & ROLLERS

Glass or Stainless Steel Inking Slabs and Wood Riser/Backing Plates

Our Inking Slabs are available in two different sizes and in either polished stainless steel or .25" thick glass.

The stainless steel slabs are pre-drilled for table top mounting, and an optional .25" thick wood backing plate is available to raise the slab off the table for easy cleaning.

Glass slabs are provided with nonskid rubber feet.

Reorder No.	Description
SLAB-GL-4X10	Glass Inking Slab - 4" x 10"
SLAB-GL-5X12	Glass Inking Slab - 5" x 12"
SLAB-SS-4X10	Stainless Steel Inking Slab - 4" x 10"
SLAB-SS-5X12	Stainless Steel Inking Slab - 5" x 12"
SLAB-W-4X10	Wood Riser/Backing Plate for Stainless Steel Inking Slab - 4" x 10" (not shown)
SLAB-W-5X12	Wood Riser/Backing Plate for Stainless Steel Inking Slab - 5" x 12" (not shown)

TIP

We also offer Postmortem Fingerprint Cards, Cardholder, and an Inking Tool. Please see page 45 of this catalog for ordering information.

Grade "A" Fingerprint Slab Ink

TRITECHFORENSICS' specifically formulated black Fingerprint Slab Ink is recognized as the best ink by identification bureaus throughout the world. This Slab Ink dries quickly on all paper forms yet remains soft on inking slabs and rollers for days.

Reorder No.	Description
INK-2	Grade "A" Fingerprint Slab Ink - 2 oz. tube
INK-4	Grade "A" Fingerprint Slab Ink - 4 oz. tube
INK-16	Grade "A" Fingerprint Slab Ink - 16 oz. jar

Roll-Ease® Fingerprint Ink Rollers

Roll-Ease® Fingerprint Ink Rollers have comfortable, unbreakable, tapered black plastic handles that suit any hand size.

When turned over, the stainless steel frame prevents the inked rubber roller from contacting the table top when not in use.

Reorder No.	Description
RLR-PL-2	Roll-Ease® Ink Roller - 2"
RLR-PL-3	Roll-Ease® Ink Roller - 3"
RLR-PL-4	Roll-Ease® Ink Roller - 4"

Steel-Grip® Fingerprint Ink Rollers

These ink rollers use the same smooth, solvent resistant, medium-soft rubber as our Roll-Ease® Ink Rollers, but they come with a .1875" diameter, stainless steel, 5.25" long handle.

When turned over, the Steel-Grip® handle prevents the inked rubber roller from contacting the table surface.

Reorder No.	Description
RLR-SG-3	Steel-Grip® Ink Roller - 3"
RLR-SG-4	Steel-Grip® Fingerprint Ink Roller - 4"

Replacement Rubber Rollers

These replacement rubber rollers will fit both Roll-Ease® and Steel-Grip® fingerprint ink rollers. Each replacement roller measures 1.1875" in diameter.

Reorder No.	Description
RLR-RR-2	Replacement Rubber Roller - 2"
RLR-RR-3	Replacement Rubber Roller - 3"
RLR-RR-4	Replacement Rubber Roller - 4"

INKLESS FINGERPRINTING

Wipe & Print™ Inkless Finger and Palm Print System

Wipe & Print™ is a revolutionary two-step approach for taking high-contrast, permanent, scannable fingerprints. Simply wipe the subject's fingertips (or palm for palm print) with the moist Wipe & Print™ towelette which contains a colorless and odorless proprietary liquid. Next, roll the subject's fingertips or palm on the specially treated Wipe & Print™ Record Cards.

The print(s) will start to develop within two to three seconds and, within fifteen seconds, the prints will be fully developed. Any remaining clear, nonstaining liquid on the subject's hand is easily removed with soap and water.

We offer a total of four different Wipe & Print™ Record Cards: Criminal, Palm Print, Child, and Applicant-Personnel-Immigration. These 8" x 8" Record Cards are printed on specially treated card stock which reacts to the proprietary fluid in the Wipe & Print™ Towelettes. These special towelettes will only develop prints on the Wipe & Print™ Record Cards.

Reorder No.	Description
CK-WP-CR	Wipe & Print™ Towelettes and Criminal Fingerprint Record Cards - 100/pkg
CK-WP-PP	Wipe & Print™ Towelettes and Palm Print Record Cards - 100/pkg
CK-WP-CH	Wipe & Print™ Towelettes and Child Fingerprint Record Cards - 100/pkg
CK-WP-API	Wipe & Print™ Towelettes and Applicant-Personnel-Immigration Fingerprint Record Cards - 100/pkg

Note: Wipe & Print™ Towelettes will only develop prints on Wipe & Print™ Record Cards.

Inkless Fingerprinting System

Inkless fingerprinting can be achieved by using this two-step system that produces high-contrast black fingerprints on any type of 8" x 8" record card. Prints taken with this system are accepted by the FBI for classification, search, and retention. This portable system is especially useful in obtaining prints for background checks from people applying for employment with government agencies, security companies, investment firms, hospitals, and banks. Since no "ink" is used in the process, no clean-up of the subject's hands is necessary.

Operation is simple, straightforward, and clean. First, roll the subject's fingers on the built-in pad which is impregnated with a clear liquid that adheres to the subject's fingers, then roll the subject's fingers on the record card. Second, place the record card into the built-in developing chamber, wait 45 seconds, then remove the developed fingerprint card.

LE-10K Inkless Fingerprinting Portable Kit

- Provided in a durable carrying case containing one replacement pad, five replacement developer sheets, one box of 500 Re-Print Tabs, and one training CD (kit shown above)

LE-10 Inkless Fingerprinting System

- Provided with one replacement pad and five developer sheets

Replacement Pad

- 500 prints per pad, 100 developed print cards per developer sheet

LE-10DS	Replacement Developer Sheets - 5/pack

CLEANING SOLUTIONS - HANDS, SLABS, & ROLLERS

NEW ITEM

Kleen-Ink® Ink Cleaning Solution Spray

Our Kleen-Ink® Solution is now available in an 8 oz. and 16 oz. spray bottles for quick and easy use!

Our Kleen-Ink® Ink Cleaning Solution is pleasantly scented, nonflammable, and specifically formulated for cleaning fingerprint ink from inking slabs and rollers.

The cleaner is extremely mild to the skin without sacrificing performance.

Reorder No.	Description
CL-KI-8S	Kleen-Ink® Ink Cleaning Solution Spray - 8 oz.
CL-KI-16S	Kleen-Ink® Ink Cleaning Solution Spray - 16 oz.

Kleen-Ink® Ink Cleaning Solution

Our Kleen-Ink® Ink Cleaning Solution is pleasantly scented, nonflammable, and specifically formulated for cleaning fingerprint ink from inking slabs and rollers.

The cleaner is extremely mild to the skin without sacrificing performance.

Kleen-Ink® is available in 32 oz. and 128 oz. containers.

Reorder No.	Description
CL-KI-32	Kleen-Ink® Ink Cleaning Fluid - 32 oz.
CL-KI-128	Kleen-Ink® Ink Cleaning Fluid - 128 oz.

GOJO® Hand Cleaner and Ink Remover

This half gallon (4.5 lbs.), wall-mount container of GOJO® Hand Cleaner is perfect for departments that process large numbers of subjects. GOJO® can be used either with or without water to remove ink from subjects' fingers and hands.

Reorder No.	Description
CL-GJ-64D	GOJO® Hand Cleaner and Ink Remover
CL-GJ-64	Replacement GOJO® Cartridge

Spray-Away® Slab and Roller Cleaner

Spray-Away® contains a fast-acting ink solvent that loosens and removes both fresh and old fingerprint ink from rubber ink rollers and glass or stainless steel inking slabs. Simply spray our cleaner directly on the inked surface and wipe away ink with a cloth or paper towel. Spray-Away® contains no fluorocarbons and is supplied in both 6 oz. and 10 oz. aerosol spray cans.

Reorder No.	Description
CL-SR-6 A	Spray-Away® Slab and Roller Cleaner - 6 oz.
CL-SR-10 A	Spray-Away® Slab and Roller Cleaner - 10 oz.

Fingerprint Ink Remover Towelettes

Our individual, disposable Fingerprint Ink Remover Towelettes are ideal for removing fingerprint ink from fingers and hands.

Each 5" x 8" towelette is saturated with a specially formulated ink removing solvent and stays moist in a hermetically sealed foil package.

Reorder No.	Description
TOWINK	Ink Remover Towelettes - 100/box

Presto® Waterless Hand Cleaner

Available in either a cream or spray formula, Presto® Waterless Hand Cleaners require, as the name says, no water. Simply apply the cleaner and wipe off with a cloth or paper towel.

Presto® Waterless Hand Cleaner Cream is a pleasantly scented, soothing cream which liquefies on contact with the skin. A small quantity rubbed on the fingers or hands will quickly dissolve fingerprint ink.

Presto® Waterless Hand Cleaner Spray is an aerosol hand cleaner which will remove any type of fingerprint ink from fingers and hands without skin irritation.

Reorder No.	Description
CL-HS-16	Presto® Waterless Hand Cleaner Cream - 16 oz.
CL-HS-16S A	Presto® Waterless Hand Cleaner Spray - 16 oz.

FINGERPRINT RECORD CARDS

Applicant-Personnel-Immigration Fingerprint Record Cards

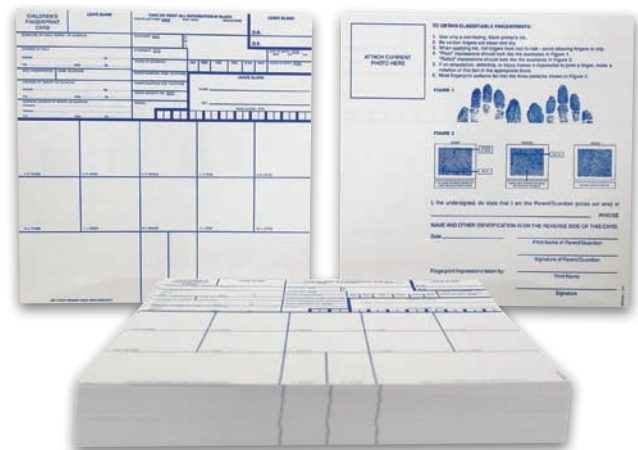

Our standard 8" x 8" Application Fingerprint Record Cards are printed on 110 lb. index card stock and are accepted by police departments, sheriff's departments, and other law enforcement agencies throughout the country. These cards are also used for employee applications by hospitals, security agencies, banks, schools, and many businesses.

Flexible yet tough enough to resist creasing and wrinkling, they are printed front and back in blue and can be used with any type of fingerprinting ink.

Reorder No.	Description
CRD-API	Applicant-Personnel-Immigration Fingerprint Record Cards - 100/pkg

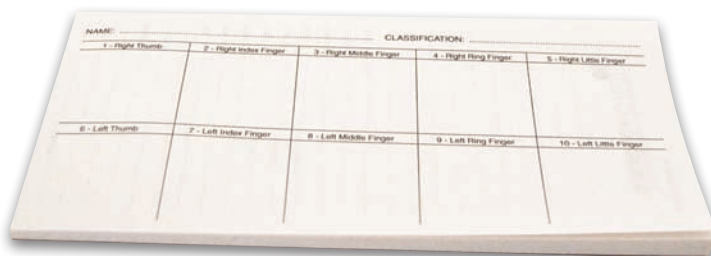

Child Fingerprint Record Cards

These Child Fingerprint Record Cards are used for child fingerprinting programs. The card contains areas for all pertinent information such as child's race, weight, hair color, and more. Space is also provided for the child's photograph. They are printed front and back in blue on 8" x 8" white 110 lb. card stock and can be used with any type of fingerprint ink.

Reorder No.	Description
CRD-CH	Child Fingerprint Record Cards - 100/pkg

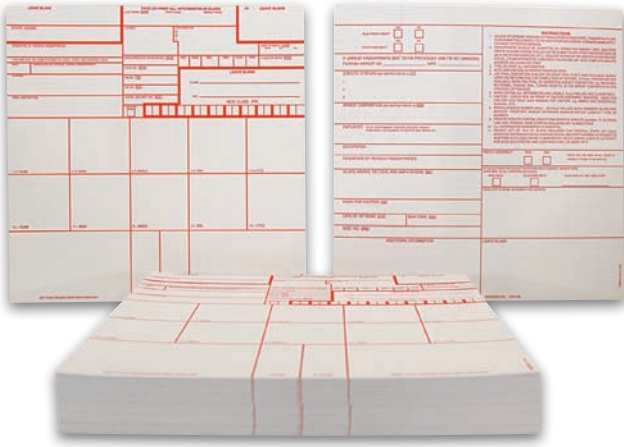

Elimination Print Pad

Each Elimination Print Card Pad contains 50 cards which measure 7" x 3.375". Each card is printed on the back side with case number, date, and all pertinent information concerning the subject being fingerprinted.

Reorder No.	Description
CRD-ELIM	Elimination Print Pad - 50 cards/pad

Criminal Fingerprint Record Cards

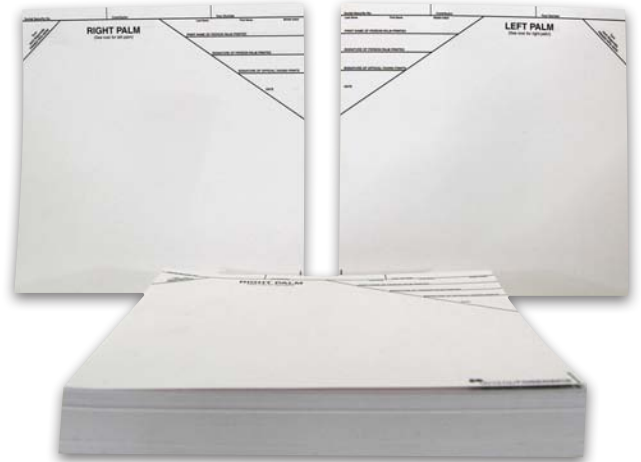

These standard 8" x 8" Fingerprint Record Cards are made of select 110 lb. index card stock. Our cards quickly absorb fingerprint ink without smudging or smearing. Flexible yet tough enough to resist creasing and wrinkling, our cards are printed front and back in red and can be used with any type of fingerprint ink your agency prefers.

Reorder No.	Description
CRD-CR	Criminal Record Cards - 100/pkg

Palm Print Record Cards

These standard 8" x 8" palm print record cards are printed front and back in black on 110 lb. index card stock. As with all our record cards, they can be used with any type of fingerprinting ink.

TIP Our Porelon® Palm Print Ink Pad is shown on page 165 and our spring loaded Palm Print Cardholder on page 173 of this catalog.

Reorder No.	Description
CRD-PP	Palm Print Record Cards - 100/pkg

Postmortem Fingerprint Record Card Strips

These 8" x 1.687" Postmortem Fingerprint Record Cards are specifically designed for use with our Postmortem Cardholder.

Our cards are printed in black on select 110 lb. index cardstock which quickly absorbs fingerprint ink without smudging or smearing.

Reorder No.	Description
PMT-CRD	Postmortem Fingerprint Record Card Strips - 100/pkg

CARDHOLDERS

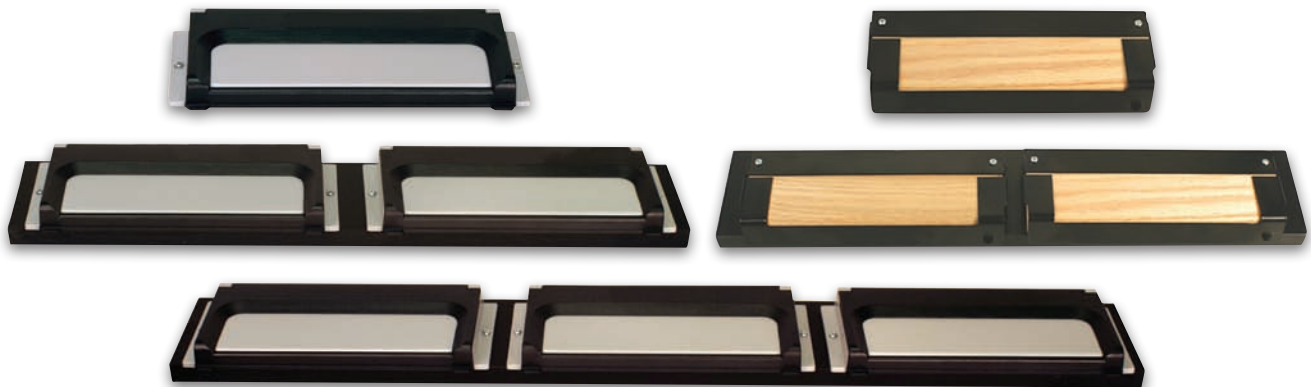

Desktop Fingerprint Cardholders - Polymer or Wood

Our Desktop Fingerprint Cardholders are available in two versions:

- **Wood** - Our standard cardholder with a metal card frame mounted on a matte finish hardwood base
- **Polymer** - Our injection-molded polymer cardholder which has a snap-lock feature that prevents any movement of an 8" x 8" fingerprint card while taking prints

These Desktop Fingerprint Cardholders are supplied with non-skid rubber feet and include screws for permanently mounting the cardholder on a desktop.

FEATURES	Measurements
	• Single Desktop Fingerprint Cardholder 4" W x 10" L
	• Double Desktop Fingerprint Cardholder 4.25" W x 22" L
	• Triple Desktop Fingerprint Cardholder 4.25" W x 32" L

Reorder No.	Description
CH-1P	Single Polymer Desktop Fingerprint Cardholder
CH-1	Single Wood Desktop Fingerprint Cardholder
CH-2P	Double Polymer Desktop Fingerprint Cardholder
CH-2	Double Wood Desktop Fingerprint Cardholder, Double
CH-3P	Triple Desktop Fingerprint Cardholder
CH-3	Triple Wood Fingerprint Cardholder (not shown)

Palm Print Cardholder

Our Palm Print Cardholder (10.75" W x 11" L x .75" H) comes with a spring-loaded card clamp to firmly secure a palm print card in place. The card holder is covered on all six sides with an easy-to-clean black laminate and is supplied with four non-skid rubber feet.

TIP Our Porelon® Palm Print Ink Pads are shown on page 165 and our Palm Print Record Cards are shown on page 172 of this catalog.

Porelon® Fingerprinting Stations - Stationary

Porelon® Inking Pads are hardworking. Their microreticulated thermoplastic resin pads cause stored ink to rise to the surface, allowing them to be ready for use immediately. This ultra-black ink can be used on any card and is nontoxic, nonfading, and dries in seconds.

DESKTOP FINGERPRINTING STATIONS

Permanently mounted on a black laminated base, the Porelon® Desktop Fingerprinting Stations include one inking pad and either one or two polymer cardholders. Non-skid rubber feet and screws for permanent desktop mounting are included with each station. The Single Desktop Fingerprinting Station measures 22" L x 4.25" W x .75" H and the Double Desktop Fingerprinting Station measures 32" L x 4.25" W x .75" H

TABLETOP FINGERPRINTING STATIONS

Our Tabletop Fingerprinting Stations are made of a wood covered with an easy-to-clean black laminate. Each station has a divided storage compartment under the top for supplies, and one Porelon® Inking Pad is attached to the top, along with one or two polymer cardholders. The Single Tabletop Fingerprinting Station measures 28" L x 11" W x 11" H and the Double Tabletop Fingerprinting Station measures 33" L x 11" W x 11" H.

PEDESTAL FINGERPRINTING STATIONS

The top of these stations is identical to the Tabletop Fingerprinting Stations described above, but they are mounted on a wide, sturdy, freestanding steel base, allowing for use in any location. They measure 37.5" high. As with our other stations, these are available with one attached Porelon® Inking Pad and either one or two polymer cardholders.

TBL-SSE2P 	Double Pedestal Semi-Inkless Fingerprinting Station

Ceramic Fingerprinting Stations - Stationary

Ceramic Fingerprinting Pads offer the unique feature of being non-deteriorating, and they are filled with a fast-drying, nonsmearing, permanent law enforcement grade fingerprint ink. Removal of the ink is easily accomplished with a damp paper towel, soap and water, or ink remover towelette.

DESKTOP FINGERPRINTING STATIONS

Permanently mounted on a black laminated base, the Ceramic Desktop Fingerprinting Stations include one inking pad and either one or two polymer cardholders. Non-skid rubber feet and screws for permanent desktop mounting are included with each station. The Single Desktop Fingerprinting Station measures 22" L x 4.25" W x .75" H and the Double Desktop Fingerprinting Station measures 32" L x 4.25" W x .75" H

TABLETOP FINGERPRINTING STATIONS

Our Tabletop Fingerprinting Stations are made of a wood covered with an easy-to-clean black laminate. Each station has a divided storage compartment under the top for supplies, and one Ceramic Inking Pad is attached to the top, along with one or two polymer cardholders. The Single Tabletop Fingerprinting Station measures 28" L x 11" W x 11" H and the Double Tabletop Fingerprinting Station measures 33" L x 11" W x 11" H.

PEDESTAL FINGERPRINTING STATIONS

The top of these stations is identical to the Tabletop Fingerprinting Stations described above, but they are mounted on a wide, sturdy, freestanding steel base, allowing for use in any location. They measure 37.5" high. As with our other stations, these are available with one attached Ceramic Inking Pad and either one or two polymer cardholders.

Stainless Steel Slab Fingerprinting Stations - Stationary

If you prefer an inking slab to an inking pad, our Stainless Steel Inking Slab may become your favored inking method. Made from polished stainless steel, it is permanently mounted to each of the Fingerprinting Stations listed below, allowing for ease of ink application and cleaning.

DESKTOP FINGERPRINTING STATIONS

Permanently mounted on a black laminated base, the Stainless Steel Inking Slab Desktop Fingerprinting Stations include one stainless steel inking slab and either one or two polymer cardholders. Non-skid rubber feet and screws for permanent desktop mounting are included with each station. The Single Desktop Fingerprinting Station measures 22" L x 4.25" W x .75" H and the Double Desktop Fingerprinting Station measures 32" L x 4.25" W x .75" H

Glass Slab Fingerprinting Stations - Stationary

Glass Inking Slabs are often preferred in fingerprinting because a precise amount of ink can be applied to the slab, allowing the technician to collect prints from a variety of subjects. The Glass Inking Slabs attached to these fingerprinting stations are made from solid, .25" thick glass with rounded edges to prevent injury.

DESKTOP FINGERPRINTING STATIONS

Permanently mounted on a black laminated base, the Glass Inking Slab Desktop Fingerprinting Stations include one glass inking slab and either one or two polymer cardholders. Non-skid rubber feet and screws for permanent desktop mounting are included with each station. The Single Desktop Fingerprinting Station measures 22" L x 4.25" W x .75" H and the Double Desktop Fingerprinting Station measures 32" L x 4.25" W x .75" H

TABLETOP FINGERPRINTING STATIONS

Our Tabletop Fingerprinting Stations are made of a wood covered with an easy-to-clean black laminate. Elimination Print Kits

Our Elimination Print Kits are designed to be used in the field to compare prints from employees or family members to unknown latent prints found at a crime scene. The compact size of the kit allows for easy portability.

Each kit is provided with a Copolymer Carrying Case (8.375 x 4.5" x 1.75"), a 50 card Elimination Print Pad, and 12 Ink Remover Towelettes.

The Semi-Inkless Elimination Kits include your choice of a 2" diameter Semi-Inkless ink pad or a 2.25" x 1.75" rectangular Semi-Inkless ink pad. The Porelon® Elimination Kit includes a 2.25" x 1.75" Porelon® ink pad.

FINGERPRINTING TOOLS

Fingerprint Ridge Builder

TRITECHFORENSICS' Fingerprint Ridge Builder is used to add definition and clarity to fingerprint ridges, permitting you to obtain readable prints from the elderly, subjects with poor ridge structure, or subjects who work with their hands, such as brick layers or farm workers.

Our Fingerprint Ridge Builder is also used in our Master Postmortem Fingerprinting Kit as a method for restoring deflated finger bulbs.

Our Ridge Builder is supplied in a convenient pump spray bottle. Simply spray the subject's fingertips with our fast drying, antiseptic ridge builder, then follow your normal fingerprinting procedures.

Reorder No.	Description
LC-RB-8	H Fingerprint Ridge Builder - 8 oz. pump
LC-RB-16	H Fingerprint Ridge Builder - 16 oz. refill
LC-RB-4	H Fingerprint Ridge Builder - 4 oz. refill

Re-Print Tabs

Our adhesive-backed Re-Print Tabs are used for covering up unacceptable prints on fingerprint record cards. These tabs can be used with Porelon®, Semi-Inkless Pads, and Fingerprint Slab Ink. There are 500 Re-Print Tabs per roll, and each roll is packaged in a hassle-free dispenser box.

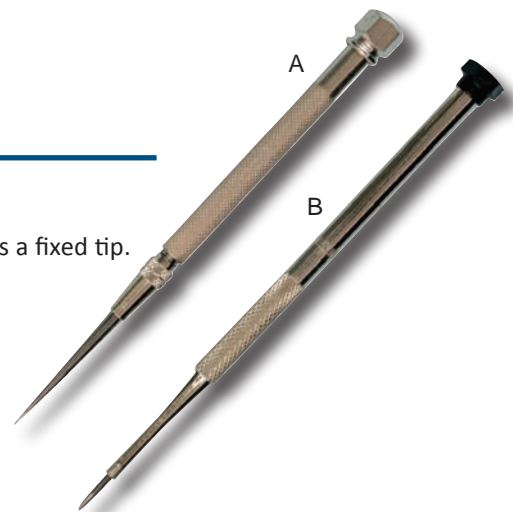

Reorder No.	Description
FINTAB500	Re-Print Tabs - 500 tabs/roll

Evidence Scribers - Ridge Counters

Our Fingerprint Ridge Counters are the finest ridge counters available.

Model A has a retractable tip which stores within the handle, and Model B has a fixed tip.

They are supplied in clear, capped plastic protectors.

Reorder No.	Description
RC-SR (A)	Scriber - Ridge Counter - Retractable
RC-NR (B)	Scriber - Ridge Counter - Fixed Tip

NEW ITEM

TRITECHFORENSICS is proud to introduce CSIpix® Comparator, an innovative forensic imaging software that runs on your PC – no new hardware required. Some of the most respected names in the forensics field are using this software to efficiently process forensic images like fingerprints, palm prints, footprints, treadmarks, and ballistics markings from the crime scene to the court room.

Scan crime scene images directly into CSIpix® Comparator or simply drag and drop these images from e-mails or folders. Scroll through folders efficiently using the thumbnail preview feature. Quickly display two images side by side at the same magnification. Print at 1:1 scale. Easily prepare court exhibits and paste them directly into a slideshow presentation or print them.

Only CSIpix® Comparator includes one-click functions like Auto Scaling, Auto Contrast, and Grayscale Optimization to speed up the comparison process, as well as efficient, easy-to-use tools for annotation and exhibit preparation.

Please give us a call at 800.438.7884 (toll free) or 910.457.6600 (direct) and one of our TRITECHFORENSICS customer service representatives will be more than happy to send you a free trial version CD of CSIpix® Comparator. You may also send us an e-mail at tritech@tritechusa.com (please include your name, title, agency, and phone number).

Maintenance for the first year following your purchase of CSIpix® Fingerprint Comparator is free. After the first anniversary of your purchase you may continue the maintenance coverage for a fee of \$149* per year. This fee is due each year before the anniversary of the initial purchase.

FEATURES

System Requirements

Processor: Pentium 4

Operating System: Windows XP Service Pack 3
Windows Vista
Windows 7

RAM: 1.0 Gigabytes

Graphics Card: 32 bit color

Monitor: 1024 x 768 pixel resolution

- MAINTENANCE INCLUDES:**
- Telephone and e-mail technical support
 - All upgrades and updates released during the maintenance term

NOTE: You do not have to subscribe to the maintenance plan. Your CSIpix® Fingerprint Comparator will continue to work, but you will not have access to telephone support. Without the maintenance plan, upgrades must be purchased at the full list price of \$299.

* Half the current full list price.

Reorder No.	Description
CP-CSIPIX	CSIpix® Comparator (Software + first year maintenance)
CP-CSIPIX-M1	1-Year Maintenance and Support Plan (Begins after first year concludes)
CP-CSIPIX-M2	2-Year Maintenance and Support Plan (Begins after first year concludes)

* Prices subject to change in the future. Purchase of Maintenance and Support Plans guarantees current pricing for those years.
